

**BASIN COMPLEX  
BUSINESS AND ECONOMIC IMPACT ASSESSMENT**

The purpose of this data is to develop a concise summary of the economic impact of the Basin Fires on the overall business community and to serve as a means to document financial losses on the part of businesses and their employees. This form may be used by individuals who also have a documented home-owned business. Data from this report will be used to request additional assistance for those who did not suffer structural fire damage, but were directly impacted through lost revenue or wages as a result of the incident. This is not a guarantee of assistance, only a means of estimating losses. Disclosure is voluntary and distribution of reported information will be limited to local, state and federal agencies. Losses listed herein may be reported as totals to media or agencies without referencing a business or individual by name.
