### **Location – Rogge Road approximately 0.45 Miles Southeast of San Juan Grade Road, in the vicinity of the construction site of the new High School**

**Bolsa Knolls** – The Monterey County Resource Management Agency announces a road closure to through traffic on Rogge Road in the Community of Bolsa Knolls. Rogge Road is expected to be closed for approximately three weeks. Construction work is anticipated to begin at 7:00 a.m. Monday, March 26, 2018 and be completed by 4:00 p.m., Friday, April 13, 2018, weather permitting. The location is approximately 0.45 miles southeast of the San Juan Grade Road in the vicinity of the construction site of the new High School.

The Salinas Union High School District has requested the road closure to allow for the construction of road improvements necessary for the new school facilities. The construction work will be performed by San Jose firm, Robert A. Bothman Construction.

During the construction period, connection between San Juan Grade Road and Natividad Road will utilize a detour through Hebert Road. The detour will be marked to enable travelers to circumnavigate the road closure. Additional traffic control devices and directional signage will be deployed to alert motorists of the closure. Emergency vehicles and local residents that need access to properties adjoining the area of road construction will continue to have access to Rogge Road during the construction period. Motorists are advised to consider alternate routes or allow additional time to travel. The Agency asks that all motorists be patient, reduce speed, and exercise added caution when traveling near the work zone.
