

Out of Compliance Local & State Small Water Systems (SWS) as of March 2019*

Last update: March 26, 2019

The SWS Local & State small water systems are systems with 2-14 connections. The MCL is the maximum contaminant level.

*Not all Water Systems out of compliance may appear on this list

| LPA ID | Program/ Element Code | Type of Water System | Location Name | Compliance Issue | Arsenic (µg/L) MCL=10 | Sample Date |

Hexavalent Chromium-The MCL was rescinded in September 2017 so there is not currently a standard. The State Water Resource Control Agency is working on creating a new MCL. More information on the reason for the rescintion and potential health concerns can be found at:

https://www.waterboards.ca.gov/drinking_water/certlic/drinkingwater/Chromium6.shtml
