Dear Mr. Novo,

In regards to the recent Draft EIR (DEIR) on GPU4 I have the following questions and comments:

- 1. Goes GPU4 specify a limit of 54,000 units at buildout? Unless it does the number used in the DEIR understates the effect on various county resources such as transportation, water, public services, etc. 30-1
- 2. The DEIR says that the Community General Plan Initiative (CGPI) does not allow for proper growth but states no figures. What are the growth figures used in the DEIR and the CGPI? 30-2
- 3. I attended several large public meetings in which the details of the CGPI were worked on. Therefore, I think it is incorrect to say that there was no public input. 30-3

I have many more questions and comments on the DEIR but think it should be completely rewritten to correct the many omissions and errors.

Yours truly,
