Director’s Report – March 29, 2018

MHSA

1. The MHSA plan is now posted to the website; we are in the 30 day public comment period.
2. Our public outreach sessions went well in each region. Thank you to the commissioners who participated. During the next commission meeting we will hold the public comment session.
3. There is extensive press regarding counties with unspent MHSA funds. Some counties have large amounts of money subject to reversion. Our most recent fiscal analysis (revenue and expenditure report) shows that we spent more than we were allocated on prevention programs.

Data
