### Health Equity
- Equity target was met in South County, with 19% of clients coming from South County system-wide
- Children System of Care (CSOC) services in South County increased by over 6%
- Continued to deliver and target underserved regions of the county and expanded array of services to the South County region
- Increased transitional housing beds for homeless adults with serious mental illness at Shelter Cove

### Innovation
- Expanded Micro-Innovation Grants for Increasing Latino Engagement
- Implemented Recovery Markers and Consumer Recovery Measures to better engage consumers in measuring their own mental health recovery
- Integration of Prop 47 services aimed to collaboratively address the mental health, substance use, employment, and restorative justice needs of individuals with non-violent drug offenses to support improved community integration

### Organizational Effectiveness
- Successfully completed first year of Drug Medi-Cal Organized Delivery Services, integrating substance use treatment into the behavioral health systems of care
- Re-designed the CSOC Post-Hospital Acute Care services
- Conducted extensive community outreach and engagements regarding how to access services; obtained valued input for developing the upcoming MHSA 3-year Plan; provided education sessions on multiple topics, e.g. maternal mental health, suicide awareness & prevention, traumatic event response, and anti-stigma/discrimination

### Service Expansion
- Expanded services to homeless adults with serious mental illness through the MCHOME program
- Clients served in Substance Use Disorder programs increased by 16%
- ACCESS services were provided to 9% more clients
- Continued expansion of access to immediate mental health support on school campuses for high risk students
- Implemented the BRIDGES program, linking supportive mental health services on school campuses for foster children

### What’s next in 2020?
We will continue our expansion of school-based services. We will continue to implement new intensive service teams and continue our work towards building new supported housing through “No Place Like Home” funding. Following the interactive input received from the community, we’ll finalize and launch our new three-year plan for MHSA funded programs.
