**DRAFT RESOLUTION**

**Before the Planning Commission in and for the  
County of Monterey, State of California**

In the matter of the application of:

**RANCHO CANADA VILLAGE (PLN040061)  
RESOLUTION NO. 16 - [REDACTED]**

Resolution by the Monterey County Planning  
Commission making recommendation to Board of  
Supervisors to:

- 1) Certify the Rancho Canada Village  
Environmental Impact Report;
- 2) Adopt CEQA Findings and a Statement of  
Overriding Considerations;
- 3) Amend Policy CV-1.27 of the 2010 General  
Plan/Carmel Valley Master Plan reducing the  
proportion of affordability housing required  
from 50% to 20%;
- 4) Rezone site from Public/Quasi-Public to  
Medium-Density Residential;
- 5) Approving the Vesting Tentative Subdivision  
Map for the 130-unit Alternative;
- 6) Approve a Combined Development Permit  
consisting of a Use Permits for development  
in the Carmel River Floodplain, tree removal,  
and grading and infrastructure installation;  
and
- 7) Adopt a Mitigation Monitoring and Reporting  
Plan.

[4860 Carmel Valley Road, Carmel Valley,

**The Rancho Canada Village application (PLN040061) came on for public hearing before the Monterey County Planning Commission on November 16, 2016. Having considered all the written and documentary evidence, the administrative record, the staff report, oral testimony, and other evidence presented, the Planning Commission finds and decides as follows:**

## FINDINGS

1. **FINDING:** **CONSISTENCY** – The project, as conditioned, is consistent with the applicable plans and policies which designate this area as appropriate for development.

- EVIDENCE:** a) Project Description. The proposed project, referred to as the 130-unit Alternative (Alternative) in the FEIR, is a 130-unit residential subdivision consisting of 118 single-family residential parcels and 12 condominium lots/units (hereafter referred to as “project” or “Alternative”). The revised Vesting Tentative Map divides approximately 81.7 acres into 118 single-family residential parcels; one condominium parcel with 12 condominium lots/units; and seven (7) parcels for roadway, open space and common area purposes serving the residential subdivision. The project includes a General Plan amendment to amend Carmel Valley Master Plan Policy CV-1.27 and rezoning, as described further below. The 130-unit Alternative occupies an approximately 82-acre area of the former West Course of the Rancho Canada Golf Club and also includes a 4.3-acre parcel (Lot 130), approximately one-half mile northeast of the main project area, which is presently developed with maintenance facilities and a residence; the Alternative would allow for the future redevelopment of one residence on Lot 130. Residential lots and roadways make up approximately 28 acres of the site; approximately 53 acres of the site are open space, conservation and common areas.

The Alternative includes applicant’s proposal to transfer 60 acre-feet/year (AFY) of water to California-American Water (Cal-Am) and to dedicate an additional 50 AFY of water for in-stream purposes to the Carmel River. Additionally, the western portion of the 130-unit Alternative site includes a below-grade storm drainage pipe to accommodate off-site drainage and a culvert to address area-wide riparian flooding.

The entire Alternative site (including Lot 130 of the Alternative) is designated Public/Quasi-Public (P/Q-P) by the *Monterey County 2010 General Plan*, with a Special Treatment Area designation allowing for residential development. The subject site is in the P/Q-P Zoning District, consistent with its General Plan land use designation and the site’s long-time use as a public golf course. Approval of the Alternative requires a General Plan Amendment (amending CVMP Policy CV-1.27 due to the proportion of affordable units included) and rezoning to the Medium-Density Residential (MDR) Zoning District, consistent with the proposed density of the Alternative. In order to fully develop the Alternative, a Standard Subdivision and Combined Development Permit for development in the Carmel River Floodplain,

tree removal (up to 139 native trees would be removed), and grading (no imported fill material is proposed) and infrastructure installation will also be required.

- b) The Alternative project area is located on the south side of Carmel Valley Road, approximately 0.6 miles east of State Highway 1, on the former West Course of the Rancho Canada Golf Club, 4860 Carmel Valley Road, Carmel Valley. Lot 130 of the Alternative is located on the south side of Carmel Valley Road, approximately 1 mile east of State Highway 1. The 130-unit Alternative consists of or includes portions of Assessor Parcel Numbers (APNs): 015-162-009-000, 015-162-017; 015-162-025-000, 015-162-026-000, 015-162-033-000, 015-162-039-000, 015-162-040-000, 015-162-041-000, 015-162-042-000, 015-162-043-000, 015-162-045-000, 015-162-046-000 and 015-162-047-000. The site is within the Carmel Valley Master Plan area.

The applicant is Rancho Canada Ventures, LLC. The applicant's predecessor in interest submitted the original project application to the County in April 2004, and the application was deemed complete on August 10, 2005. The application included a specific plan and a 281-unit residential subdivision (hereafter the "RCV Project") and open space/recreational improvement. The EIR analyzed the RCV Project and the 130 unit Alternative which is the subject of this resolution.

- c) During the course of review of this application, the Alternative has been reviewed for consistency with the text, policies, and regulations in the:
- 2010 Monterey County General Plan;
  - Greater Monterey Peninsula Area Plan; Carmel Valley Master Plan (CVMP);
  - Monterey County Zoning Ordinance (Title 21); and
  - Subdivision Ordinance (Title 19).

The Project is subject to the 2010 General Plan. The project application was deemed complete in August 2005. Per the Subdivision Map Act, the application is subject to the ordinances, policies, and standards in effect at the date the application was deemed complete; however, as an exception to that rule, "if the subdivision applicant requests changes in applicable ordinances, policies or standards in connection with the same development project, any ordinances, policies or standard adopted pursuant to the applicant's request shall apply." (Government Code sec. 66474.2.) The 130 unit project would need an amendment to the land use designation of the 1982 General Plan if the project were subject to the 1982 General Plan. Instead, as is allowable under the Map Act, the applicant has elected to come under the 2010 General Plan Special Treatment Area Policy with a proposed amendment to modify the requirement for a minimum of 50% affordable/workforce housing to 20% affordable housing; therefore, County is applying the 2010 General Plan to this project. With that amendment, the Alternative is consistent with the 2010 General Plan/CVMP. A rezoning of the site from Public/Quasi-Public (P/Q-P) to Medium-Density Residential (MDR), to conform to

the General Plan Special Treatment Area, is also proposed. The proposed General Plan amendment is as follows (changes shown in strikethrough/italics):

Special Treatment Area: Rancho Canada Village – Up to 40 acres within properties located generally between Val Verde Drive and the Rancho Canada Golf Course, from the Carmel River to Carmel Valley Road, excluding portions of properties in the floodplain shall be designated as a Special Treatment Area. *Notwithstanding any other General Plan policies*, residential development may be allowed with a density of up to 10 units/acre in this area with a minimum ~~520%~~ affordable/~~workforce~~ housing. Prior to beginning new residential development (excluding the first unit on an existing lot of record), projects must address environmental resource constraints (e.g.; water, traffic, flooding). (APN: 015-162-017-000, 015-162-025-000, 015-162-026-000, 015-162-039-000 and 015-162-040-000, 015-162-033-000, 015-162-035-000, 015-162-036-000, 015-162-037-000, 015-162-038-000, 015-021- 005-000)

- d) The Alternative site is located on the south side of Carmel Valley Road, approximately 0.6 miles east of State Highway 1 on the western portion of the former West Course of the Rancho Canada Golf Club; one additional, noncontiguous, 4.6-acre parcel (Lot 130) included in the Alternative is located approximately 0.5 miles east of the former West Course site.

The total area of the Alternative site is approximately 81.7 acres, 39.4 acres of which, adjacent to the Carmel River, is designated as permanent open space and conservation uses, leaving 42.3 acres for residential use and common areas serving the residential lots. Based on an area of 42.3 acres the residential density is 3.07 units/acre. Of the approximately 42.3 acres, 28.5 of which are devoted to residential use, for density of 4.56 units/acre. Whether density is considered at either 3.07 units/acre or 4.56, the Alternative is consistent with the Medium-Density Residential (MDR) General Plan and Zoning District density ranges of 1-5 units/acre. A zoning change re-designating the site from the existing P/Q-P to MDR is included in the Alternative project description. Like other Carmel valley properties, the Alternative site, including Lot 130, is presently in the Site Plan Review (S) and Design Control (D) overlay Zoning Districts. The rezoning of the western portion of the Alternative site to from P/Q-P to MDR will not alter the S and D overlay designations, the site will remain in both the S and D districts and subject to the districts' requirements. A zoning ordinance would be presented to the Board to rezone the site from Public/Quasi-Public to Medium-Density Residential and Low-Density Residential .

The entire Alternative site, including Lot 130, is designated Public/Quasi-Public (P/Q-P) by the General Plan//CVMP, with a Special Treatment Area (CVMP Policy CV-1.27) designation

allowing for residential development subject to certain provisions, despite the P/Q-P designation. Due to the existing Special Treatment Area, which allows residential development, the Alternative is not inconsistent with the General Plan in terms of land use. The Alternative includes an amendment to modify the text of the Special Treatment Area solely to address the issue of the required amount of affordable/Workforce housing, reducing the requirement from 50% affordable/workforce to 20% affordable. Therefore, the Alternative is consistent with the General Plan relative to land use.

In order to develop the Alternative, a Standard Subdivision and Combined Development Permit for development in the Carmel River Floodplain, tree removal, and grading and infrastructure installation is included in the project description. Through approval of the Combined Development Permit and Standard Subdivision as well as the General Plan amendment and zoning, the project is consistent with the land use and zoning for the site.

- e) The Alternative site is located on the south side of Carmel Valley Road at the mouth of Carmel Valley. The site is bordered by residentially-developed and designated (though undeveloped) properties to the west, parkland and open space to the south, the East Course of the Rancho Canada Golf Club to the east, and the Carmel Middle School and a church to the north. The site will take access from Carmel Valley Road, the principal east-west corridor in the area and is near (0.6 miles) Highway 1, the major north-south corridor in the area. Significant commercial development lies west of the Alternative site, abutting Highway 1. The Alternative is located on an infill site at the mouth of the Valley and is compatible with the nearby residential uses, which include both higher density development to the west and lower density development to the east, as well as the institutional, open space and commercial uses in the vicinity.
- f) The project planner conducted site inspections in May and June 2015, when the West Course was operational, and in September 2016, after the course ceased operation. Through these visits project planner verified that the project conforms to the plans listed above and is suitable for the proposed development and uses.
- g) 2010 Monterey County General Plan Policy LU-1.19. The project, as proposed and conditioned, is consistent with the provisions of General Plan Policy LU-1.19, though the Policy's applicability to the site is uncertain due to the existing Special Treatment Area (CV-1.27) and the Policy's intent to apply to areas of the County not targeted for development. The Special treatment Area designation clearly targets the site for development. Given the Alternative's location in Carmel Valley, it is outside of a Community Area, Rural Center or Affordable Housing Overlay, the areas that specified as exempt from Policy LU-1.19. While the Alternative is being considered in advance of adoption of the Development Evaluation System (DES), County has

applied the DES evaluation criteria to projects pending development of the DES. This project meets the evaluation criteria set forth in Policy LU-1.19, with the exception of not providing a minimum 35% affordable/Workforce housing. Based on the specific facts associated with this application it is determined that the project would pass the DES, if a pass/fail scoring system were in place. Policy LU-1.19 states: “*Community Areas, Rural Centers and Affordable Housing Overlay districts are the top priority for development in the unincorporated areas of the County. Outside of those areas, a Development Evaluation System shall be established to provide a systematic, consistent, predictable, and quantitative method for decision-makers to evaluate developments of five or more lots or units and developments of equivalent or greater traffic, water, or wastewater intensity. The system shall be a pass-fail system and shall include a mechanism to quantitatively evaluate development in light of the policies of the General Plan and the implementing regulations, resources and infrastructure, and the overall quality of the development. Evaluation criteria shall include but are not limited to:*

- a. Site Suitability*
- b. Infrastructure*
- c. Resource Management*
- d. Proximity to a City, Community Area, or Rural Center*  
*Mix/Balance of uses including Affordable Housing consistent with the County Affordable/Workforce Housing Incentive Program adopted pursuant to the Monterey County Housing Element*
- e. Environmental Impacts and Potential Mitigation*
- f. Proximity to multiple modes of transportation*
- g. Jobs-Housing balance within the community and between the community and surrounding areas*
- h. Minimum passing score*

*Residential development shall incorporate the following minimum requirements for developments in Rural Centers prior to the preparation of an Infrastructure and Financing Study, or outside of a Community Area or Rural Center:*

- 1) 35% affordable/Workforce housing (25% inclusionary; 10% Workforce) for projects of five or more units to be considered.*
- 2) If the project is designed with at least 15% farmworker inclusionary housing, the minimum requirement may be reduced to 30% total.*

*This Development Evaluation System shall be established within 12 months of adopting this General Plan.”*

Given the Project’s infill nature (the site has been developed as a 36-hole public golf course for over 40 years) and location at the Mouth of Carmel Valley, near existing communities, major roadways and services, the 130-unit Alternative is consistent with the majority of the specified DES criteria, if the criteria are deemed to apply to an infill location such as the proposed site. As with the Special Treatment Area, the Inclusionary Ordinance and General Plan Policy LU-2.13,

the one potential area of inconsistency between the 130-unit Alternative and the DES is the proportion of affordable housing included. In areas subject to the DES, the DES calls for new residential development to provide “35% affordable/Workforce housing,” or 10% more than General Plan Policy LU-2.13. However, as discussed, above, the RCV site is designated as a Special Treatment Area (CVMP Policy CV-1.27) by the 2010 General Plan; a site-specific designation that was established in acknowledgement of the RCV Project and, accordingly, treats the property in a manner unique to its location. Under the Special Treatment Area designation, the originally proposed 281-unit Project would have provided nearly 50% affordable/workforce housing, but, due to the unit cap in CVMP Policy CV-1.6 the 281-unit Project cannot be approved without a General Plan Amendment increasing or eliminating the 190-new units cap. Therefore, as previously discussed, a General Plan Amendment modifying the Special Treatment Area’s 50% affordable/workforce housing provision is included as part of the Alternative..

Specifically addressing Policy LU-1.19’s criteria: In terms of “site suitability,” “proximity to cities and communities,” and “multiple modes of transportation,” the project’s location at the Mouth of Carmel Valley, near a mix of commercial development and immediately adjacent to higher-density housing, makes the site suitable for the type of residential development proposed. Moreover, the site’s suitability for a residential project like the RCV proposal is reflected in the Special Treatment Area designation and criteria placed on the project site, allowing for a residential project of this scale and density on the existing Rancho Canada Golf Course. The site’s location also provides direct access to Carmel Valley Road, the principal east-west transportation corridor through the valley, and efficient access to Highway 1, the major north-south transportation corridor 0.6 miles west of the proposed RCV site. Additionally, the nearby Monterey Peninsula communities of Carmel-by-the-Sea, Pacific Grove and Monterey are within short travel distance of the site and offer a wide range of commercial and personal services, employment opportunities and, alternate modes of transportation, including bus access, bicycling and walking.

Regarding “infrastructure and services,” the site has long been developed and used as a public golf course, meaning that the proposed RCV project will result in less water usage than baseline conditions. For instance, it is estimated that the residential component of the 130-unit Alternative will use approximately one-third the water historically used by the West Course. To reiterate, the site’s location in the more intensely developed Mouth of the Valley also makes it a suitable location to more efficiently connect to other necessary infrastructure, such as sewer, and to be more conveniently served by existing services, such as fire, police and schools.

Regarding the criteria “mix/balance of uses” and “jobs-housing

balance,” the Alternative proposes a significant amount of much-needed housing at the Mouth of the Valley. As discussed, the Alternative is subject to the County’s Inclusionary Housing Program, and through the mix of housing types (i.e., small-lot single-family detached, duet units and apartments/condominiums) proposed should be “affordable by design” relative to the large-lot, single-family detached residences more characteristic of Carmel Valley. While the majority of the Alternative’s proposed units would not be subject to deed restriction, ensuring long-term affordability based on income category (such as very low, low, moderate or workforce), the proposed mix of small-lot attached and detached housing units builds in a degree of relative affordability and would, based on recent housing trends, provide housing types more in sync with younger, working families and seniors. As stated by the applicant, due to the significant reduction in housing units from the original 281-unit Project, the 130-unit Alternative would not, however, meet the “35% affordable/workforce” housing criteria specified in Policy LU-1.19. By adopting the proposed General Plan Amendment, modifying the Special Treatment Area to allow for a minimum provision of 20% affordable housing, notwithstanding any other General Plan policies, this inconsistency will be resolved. Under the proposed General Plan amendment, 20% of the units would be deed-restricted to be affordable to moderate income households (up to 120% of median income), which would still result in needed affordable housing in Carmel Valley.

Finally, regarding “resource management” and “environmental impacts and potential mitigations,” the Alternative would create a residential development compatible with the remaining 18-hole East Golf Course (which will likely become permanent open space and park land in the near future based on the site’s recent purchase by the Public Trust for Land) and the surrounding park and open space land to the south. Specifically, the Alternative would add and enhance native landscaping, trails and natural-looking ponds to accommodate onsite drainage and benefit wildlife. The project site will also include connections to the existing bridge over the Carmel River, linking the site with Palo Corona Regional Park, and will maintain wildlife corridors allowing species access through the site to regional open space areas.

In summary, when considered in relation to the DES criteria specified in General Plan Land Use Policy LU-1.19 and with the proposed General Plan amendment, the Alternative is consistent.

- h) The project was referred to the Carmel Valley Land Use Advisory Committee (LUAC) for review on three occasions: May 2004 (original 281-unit Project only); September 21, 2015 and February 1, 2016 meetings. At both the September 21 and February 1 meetings the 130-unit Alternative was presented and discussed in detail. Both the applicant and County staff attended the LUAC meetings, presented

information and responded to questions from LUAC members and the public. At the conclusion of the February 1 meeting (continued from September 15, 2015), the LUAC voted to not provide a recommendation to the Planning Commission and Board of Supervisors regarding the RCV Project or Alternative based on the RDEIR not being completed and available for their review. Similarly, when the 281-unit Project was presented to the LUAC in May 2004, the LUAC voted to not make a recommendation due to the unavailability of the DEIR.

- i) The Project and Alternative were presented to the Housing Advisory Committee (HAC) at its March 9, 2016 meeting. Both the applicant and County staff attended the HAC meeting, presented information and responded to questions from HAC members. The HAC's discussion focused on the proportion of affordable units that should be required of the 130-unit Alternative, but ultimately, after three separate motions, the HAC did not provide a recommendation due a lack of majority on the motions.
- j) The application, project plans, and related support materials submitted by the project applicant to Monterey County RMA-Planning for the proposed development found in Project File PLN040061.

**2. FINDING: SITE SUITABILITY** – The site is physically suitable for the use proposed.

- EVIDENCE:**
- a) The project has been reviewed for site suitability by the following departments and agencies: RMA-Planning; Cypress and Carmel Highlands Fire Protection Districts; Parks Department, RMA-Public Works, RMA-Environmental Services; Environmental Health Bureau, Water Resources Agency; Economic Development Department (Housing); and Monterey County Sheriff's Office; Monterey Peninsula Water Management District; Transportation Agency of Monterey County; Monterey-Salinas Transit District; Caltrans; Carmel Unified School District; National Marine fisheries Service. There has been no indication from these departments/agencies that the site is not suitable for the proposed development. Standard and project-specific conditions of approval and mitigation measures to insure orderly development and compliance with current development standards have been attached to this resolution and are part of this project's approval.
  - b) Staff identified potential impacts to Geology and Soils; Hydrology; Biological Resources; Aesthetics; Land Use; Hazards and Hazardous Materials; Transportation and Circulation; Air Quality; Noise; Public Services, Utilities and recreation; Cultural Resources; Population and Housing; Greenhouse Gas Emissions and Climate Change. . The
  - c) The project planner conducted site inspections in May and June 2015, when the West Course was operational, and in September 2016, after the course ceased operation. Through these visits project planner

verified that the project conforms to the plans listed above and is suitable for the proposed development and uses.

- d) The application, project plans, and related support materials submitted by the project applicant to the Monterey County RMA - Planning for the proposed development found in Project File PLN040061.

**3. FINDING: HEALTH AND SAFETY / NO VIOLATIONS** - The establishment, maintenance, or operation of the project applied for will not under the circumstances of this particular case be detrimental to the health, safety, peace, morals, comfort, and general welfare of persons residing or working in the neighborhood of such proposed use, or be detrimental or injurious to property and improvements in the neighborhood or to the general welfare of the County. The subject property is presently in compliance with all rules and regulations pertaining to zoning uses, subdivision, and any other applicable provisions of the County's zoning ordinance. No violations exist on the property.

- EVIDENCE:**
- a) All necessary public facilities are available to the project site. The sewer service is provided by the Carmel Area Wastewater District (CAWD) and water is provided by the California American Water Company. Water and Sewer are available to the site from Carmel Valley Road as well as gas, electric, telephone, and television utilities.
  - b) A medium density residential project on an infill site that the General Plan considers for densities up to 10 units/acre is consistent with the land use pattern in the area and will not adversely affect the surrounding residential areas.
  - c) Staff conducted site inspections on May and June 2015 and September 2016; and researched County records to assess if any violation exists on the subject property. Staff reviewed Monterey County RMA - Planning and Building Services records and is not aware of any violations existing on subject property, and there no known violations on the subject parcel.
  - d) The application, project plans, and related support materials submitted by the project applicant to the Monterey County RMA - Planning for the proposed development found in Project File PLN1040061.

**4. FINDING: CEQA (EIR)** –The “draft” Final Environmental Impact Report (EIR) for the Rancho Canada Village Project, including the fully analyzed 130-unit Alternative, has been completed in compliance with the California Environmental Quality Act (CEQA); the draft Final EIR was presented to the County of Monterey Planning Commission, and the Planning Commission reviewed and considered the information contained in the EIR prior to recommending approval of the project; and the Planning Commission finds the EIR reflects the County of

Monterey's independent judgment and analysis.

- EVIDENCE:**
- a) CEQA requires preparation of an environmental impact report if there is substantial evidence in light of the whole record that the project may have a significant effect on the environment.
  - b) The draft FEIR for the Rancho Canada Village Project application (RMA-Planning File No. PLN040061) was prepared in accordance with CEQA. The Recirculated Draft EIR (RDEIR) for PLN040061 was circulated for public review from June 2, through August 8, 2016 (SCH#: 2006081150); however, comments received through August 31, 2016 were responded to and included in the FEIR.
  - c) Issues that were analyzed in the EIR include Aesthetics, Air Quality, Biological Resources, Greenhouse Gas Emissions and Climate Change, Cultural Resources, Geology, Seismicity and Soils, Hydrology and Water Quality, Land Use, Noise and Vibration, Public Services and Utilities, Transportation and Circulation and Hazards and Hazardous Materials. The EIR identified potentially significant impacts that are either less than significant or can be mitigated to less than significant levels associated with Aesthetics; Air Quality; Biological Resources; Greenhouse Gas Emissions and Climate Change; Cultural Resources; Geology, Seismicity and Soils; Hydrology and Water Quality; Land Use; Noise; Transportation and Circulation, and Public Services and Utilities and Hazards; Population and Housing; and Hazards and Hazardous Materials. The EIR also identified unavoidable significant impacts associated with Transportation and Circulation that cannot be mitigated to less than significant levels. As described in these findings and in the Final EIR, the mitigation measures avoid or substantially lessen the significant environmental effects to less than significant levels (see Finding No. 6), or, for impacts identified as significant and unavoidable, all feasible mitigation measures have been incorporated, but even with such mitigation, the impacts remain significant.
  - d) Public review of the RDEIR generated comments from the public and public agencies. The County responded to these comments and made revisions to the RDEIR. Response to comments and revisions to the RDEIR constitute the Final EIR. The FEIR made available to the public on November 9, 2016. Together, the RDEIR, the revisions to the RDEIR, the comments of persons and organizations commenting on the RDEIR, and a list of all such persons and organizations, the November 9, 2016 draft FEIR containing responses to the comments constitute the draft Final Environmental Impact Report (FEIR) on the project. The November 9, 2016 draft FEIR will be finalized prior to the Board of Supervisors' hearing on the project and presented to the Board of Supervisors for their consideration.
  - e) No consultation required under Assembly Bill 52 (AB52) was conducted with a Native American Tribe relative to Tribal Cultural

Resources because the Notice Of Preparation (NOP) for this project was issued on August 30, 2006 and was available for public review until September 29, 2016. The requirement for tribal consultation pursuant to AB52 is for projects that had a NOP issued on or after July 1, 2015.

- f) All project changes required to avoid significant effects on the environment have been incorporated into the project and/or are made conditions of approval. A Condition Compliance and Mitigation Monitoring and/or Reporting Plan will be prepared in accordance with Monterey County regulations and is designed to ensure compliance during project implementation. The applicant must enter into an “Agreement to Implement a Mitigation Monitoring and/or Reporting Plan” as a condition of project approval
- g) Pursuant to CEQA Guidelines Section 15088(b), upon finalizing the FEIR and at least 10 days prior to the Board of Supervisors’ consideration of the FEIR, the County will notify those public agencies that submitted comments on the DEIR that a FEIR is available for review and provides the proposed responses to the public agency comments.
- h) Evidence that has been received and considered includes: the application, technical studies/reports (see Finding No. 2, Site Suitability), staff report that reflects the County’s independent judgment, and information and testimony presented during public meetings and hearings (as applicable). These documents are on file in RMA-Planning (File No. PLN040061) and are hereby incorporated by reference.
- i) Monterey County RMA-Planning, located at 168 W. Alisal, 2nd Floor, Salinas, California, 93901, is the custodian of documents and other materials that constitute the record of proceedings upon which the decision to certify the Final EIR will be based.

**5. FINDING: POTENTIALLY SIGNIFICANT ENVIRONMENTAL IMPACTS IDENTIFIED IN THE EIR THAT ARE REDUCED TO A LEVEL OF “LESS THAN SIGNIFICANT” BY THE MITIGATION MEASURES IDENTIFIED IN THE EIR AND ADOPTED FOR THE PROJECT** – The project would result in significant and potentially significant impacts that will be mitigated to a less than significant level due to incorporation of mitigation measures from the EIR into the conditions of project approval. Changes or alterations have been required in, or incorporated into, the Project which mitigate or avoid the significant effects on the environment as identified in the draft FEIR. This Resolution incorporates all of the mitigation measures, identified in the Rancho Canada Village Project draft FEIR, which are not cited individually in this document, and makes them conditions of approval of the Alternative. All resource areas that could result in a potentially

significant environmental impact can be mitigated through the measures cited in the draft FEIR to a level of less than significance, with the exception of project and cumulative traffic impacts.

**EVIDENCE:** a) The EIR identified potentially significant impacts that require mitigation to Aesthetics; Biological Resources; Cultural Resources; Greenhouse Gas Emissions and Climate Change; Air Quality; Public Services, Utilities and Recreation; Geology, Seismicity and Soils; Land Use; Noise; Hazards and Hazardous Materials; Population and Housing and Transportation and Circulation which could result from all components of Project. These impacts will be mitigated to a less than significant level with incorporation of mitigation measures from the EIR into the conditions of project approval. In its recommendation to the Board, the Planning Commission considered project approval subject to conditions of approval that incorporate the proposed mitigation.

**6. FINDING: SIGNIFICANT UNAVOIDABLE ADVERSE IMPACTS – (POTENTIALLY SIGNIFICANT ENVIRONMENTAL IMPACTS IDENTIFIED IN THE EIR THAT ARE NOT REDUCED TO A LEVEL OF “LESS THAN SIGNIFICANT” BY THE MITIGATION MEASURES) –** The project will result in significant and unavoidable impacts that will not be mitigated to a less than significant level even with the incorporation of mitigation measures from the EIR into the conditions of project approval. Specific economic, legal, social, technological, and other considerations, including considerations for the provision of affordable housing opportunities for workers, make infeasible additional mitigation.

**EVIDENCE:** a) The EIR identified potentially significant impacts to Transportation and Circulation, which could result from the project. Mitigation measures have been identified which reduce some of these impacts, but not to a level of insignificance, these impacts are significant and unavoidable and will not be mitigated to a less than significant level.

b) Transportation and Circulation. The RDEIR identified significant and unavoidable impacts to the following areas. Full description and analysis of transportation and traffic impacts is provided in Chapter 3.7 of the RDEIR and draft FEIR:

- **Construction traffic** associated with the Alternative is not expected to lower LOS levels on any affected roadway. However, given that there are failing operations under existing conditions at certain locations, such as along Highway 1 and at the Laureles Grade/SR 68 intersection, the addition of construction traffic would result in a significant impact. Mitigation Measure (MM) TRA-3 would reduce construction impacts, but would not avoid all contributions to locations with existing failing traffic operations.
- **Traffic on segments of State Highway 1 and Carmel Valley**

**Road.** The Alternative would increase local traffic on these major area roadways and would contribute to regional traffic. The Alternative would have lower direct traffic generation but would still contribute cumulatively to significant traffic impacts on State Highway 1 and Carmel Valley Road. At these locations cumulative impacts are considered unavoidable due to the unavailability of feasible mitigation measures to sufficiently improve traffic flow without resulting in secondary impacts and fundamental inconsistency with the intent of the CVMP relative to maintaining the semi-rural character of Carmel Valley and community preferences to not widen Highway 1.

**7. FINDING: ALTERNATIVES TO THE PROPOSED PROJECT** - The EIR evaluated a reasonable range of potentially feasible alternatives to the proposed project in compliance with CEQA Guidelines section 15126.6. Specific economic, legal, social, technological, or other considerations make infeasible the project alternatives identified in the EIR. The alternatives identified in the EIR and the reasons they are infeasible are described below:

- EVIDENCE:**
- a) Per the CEQA Guidelines, Section 15126.6 (f)(2), an alternative project location need only be analyzed if the significant effects of the proposed project would be avoided or substantially lessened by putting the project in another location.
  - b) In addition to the 130-unit Alternative, which was described and evaluated at a level equivalent to the Project, six additional alternatives to the Project were considered in the EIR, they are: 1) No Project Alternative; 2) East Golf Course Alternative; 3) Medium-Density Alternative (186 units); 4) Low-Density Alternative (40 units); 5) Rio Road Extension Emergency Access-Only Alternative; 6) Stemple Property Avoidance Alternative.

The No Project Alternative would result in just that, no project; the site would remain the former West Course (the West Course ceased operation earlier this year) of the Rancho Canada Golf Club and no development, residential or otherwise, would occur.

The East Course Alternative considered developing the Project on the East Course of the Rancho Canada Golf Club in order to create a greater physical separation from Carmel Middle School, the church and residential areas to the west of the Project site. The East Course Alternative was not considered viable, however, since the development area needed would encroach into the Carmel River Floodplain. Moreover, now that the East Course properties have been acquired by the Trust for Public Land for park and open space purposes, this alternative is rendered infeasible.

The Rio Road Extension Emergency Access-Only and Stemple

Property Avoidance Alternatives considered minor changes to the Project related to limiting vehicular access (Rio Road) and the exclusion of a small, oddly-shaped property (Stemple) on the Project's northern boundary. Neither of these alternatives would result in any significant differences from the Project and the 130-unit Alternative already incorporates the defining elements of both these alternatives (i.e., Rio Road would be used only for pedestrian, bicycle and emergency vehicle access and the Stemple Property is not included) into its design.

The two remaining alternatives, Medium-Density (186 units) and Low-Density Alternatives, consider residential projects at densities less than the proposed Project at the Project location. The Medium-Density Alternative includes 186 residential units, 95 fewer than the original Project and would therefore lessen, though not avoid, some resource impacts, such as traffic. Similar to the Project, though, the Medium-Density Alternative would require an increase to the CVMP Policy CV-1.6 residential unit cap in that it includes 26 more units than the remaining cap (160) allows. The Medium-Density Alternative would meet the Project objectives of creating a residential community that would include affordable/workforce housing, though at a much smaller proportion than the Project (the Medium-Density Alternative would include approximately 44 affordable/workforce units, 24% of the unit total). From a policy standpoint, the Medium-Density Alternative does not comply with either the Carmel Valley unit cap or the Special Treatment Area affordability requirements. The Low-Density Alternative includes 40 new lots/residences and assumes the same amount of open space (approximately 40 acres) proposed by the Project would be retained. Thus, the site would be developed with lots averaging about one-acre in area, more in keeping with the semi-rural character of Carmel Valley. This alternative, however, would obviously result in far fewer new housing opportunities than both the Project and the 130-unit Alternative and is at a density well below that anticipated, or allowed, by the Special Treatment Area (10 units/acre).

- 8. FINDING: STATEMENT OF OVERRIDING CONSIDERATIONS -** Per Public Resources Code section 21081(b) and section 15093 of the CEQA Guidelines, with respect to the identified significant unavoidable environmental effects of the project, the Planning Commission has weighed the economic, legal, social, technological, and other benefits, including region-wide and statewide environmental benefits, of the project against its unavoidable significant environmental impacts in making its recommendation to the Board regarding the project. The Planning Commission recommends that the Board of Supervisors find that the benefits of the project outweigh its unavoidable, adverse environmental impacts such that the adverse environmental effects may be considered acceptable. Each benefit set forth below constitutes an overriding consideration warranting

approval of the project, independent of other benefits, despite each and every unavoidable impact.

- EVIDENCE:** a) The proposed Alternative will result in development that will provide benefits described herein to the surrounding community and the County as a whole. Any one of the facts listed below would be sufficient, in balancing the public good in approving this project against the unavoidable significant impacts identified, to find that the benefits of the project outweigh the unavoidable adverse environmental effects. The project would provide the following benefits to the public:
- i. The Alternative provides housing in an area of limited new home construction and provides a range of housing types, such as small-lot single-family and condominium units that are not typical of the Carmel Valley area and are relatively more affordable in comparison to the typical large-lot single-family residences and ranch homes that characterize Carmel Valley. Carmel Valley, like much of the Monterey Peninsula, is an area of the County where there has been little success in providing affordable housing. The project proposes to provide 25 Inclusionary units of rental affordable housing at Moderate income levels in the Carmel Valley/Greater Monterey Peninsula Planning Area - an area with a recognized need for affordable housing. The 2015 – 2023 County of Monterey Housing Element Update, adopted by the Board of Supervisors on January 26, 2016, identifies a shortage of affordable housing in the unincorporated areas of the county. Based upon the fact that the rents in the Greater Monterey Peninsula Planning area are higher than elsewhere in the County, resulting in housing which is not affordable, this project will provide housing affordable to moderate income households. This project helps achieve Policy H-3.7 of the Housing Element, to “work to achieve balanced housing production proportional to the job-based housing demand in each region of the unincorporated area.” This project will assist in providing the jobs/housing balance, as the project will provide housing affordable to the young professionals who work on the Monterey Peninsula and are trying to enter the housing market, as well as seniors or other residents looking to downsize from a larger single-family residence and move to a condominium, duet unit or small-lot single-family residence. The Alternative provides housing opportunities for targeted Workforce housing groups and young professionals who may not otherwise get into the Carmel Valley/Monterey Peninsula housing market.
  - ii. The Alternative will permanently preserve approximately 40 acres of open space of the 81.7-acre project site. The open space would consist of naturally-landscaped areas and ponds/drainage basins adjacent to the Carmel River. Several conditions of approval of this project require the preservation and active management of this area. Without approval of the project and the imminent closure of the golf course, the area’s future use would remain uncertain. The

- Alternative includes a condition of approval requiring the applicant to place the majority of the area in permanent conservation easement or to actively protect and manage the area;
- iii. The Alternative will install new trails open to the public and strengthen connections to existing open space areas, including Palo Corona Park..
  - iv. The Alternative will create economic benefits to the County and the economy through the creation of jobs for construction (temporary), and the creation of new property tax revenue through higher property valuation. Given the intent to build the subdivision out over time by individual property owners this could also have the added benefit of involving local contractors and trade persons and enabling them to acquire current job skills and familiarity with current codes.
  - v. The Alternative includes a dedication of water to the Carmel River for instream purposes that is not imposed through mitigation measures or other regulatory requirements.
  - vi. The Alternative includes flood control and drainage improvements unrelated to any required mitigations measures. The two principal elements are a below-grade pipe oriented in a north-south direction along the site’s western boundary. This pipe would connect to a future County drainage project, immediately to the north, that would direct storm water from Carmel Valley Road to the Carmel River, greatly lessening storm water-related flood impacts in the area. The Alternative also includes the installation of a large culvert (10’ x 12’) along the site’s western edge that would address riverine flooding. These improvements, not required through the CEQA process as mitigations should lessen both riverine and storm water-related flooding for properties at the mouth of the Valley.

**9. FINDING:** **MITIGATION MONITORING PROGRAM** - Per Public Resources Code section 21081.6 and the County-adopted Condition of Approval and Mitigation Monitoring and Reporting Program, the County is, as part of this action, adopting a reporting or monitoring plan for the changes made to the project or conditions of project approval in order to mitigate or avoid significant effects on the environment.

- EVIDENCE:**
- a) Adoption of the MMRP is part of the Planning Commission’s recommendation. The mitigation measures identified in the FEIR will be incorporated as conditions of approval and are included as an attachment to this resolution recommending approval of the project.
  - b) The Applicant/Owner of the project will be required to enter into an “Agreement to Implement a Mitigation Monitoring and Reporting Plan” as a condition of approval for the project .
  - c) Mitigation measures are found in the draft FEIR for the Rancho Canada Village Project, November 2016. .
  - d) The application, plans and supporting materials submitted by the project applicant to Monterey County RMA-Planning for the proposed development found in Project File PLN040061.

**10. FINDING: RECIRCULATION NOT REQUIRED** – No new significant information has been added to the EIR since circulation of the DEIR that would require recirculation of the EIR. Per Section 15088.5 of the CEQA Guidelines, the County of Monterey is required to recirculate an EIR when significant new information is added to the EIR after public notice is given of the availability of the draft EIR for public review but before certification. “Significant new information” requiring recirculation may include, for example, a disclosure showing:

- 1) A new significant environmental impact resulting from the project or from a new mitigation measure proposed to be implemented;
- 2) A substantial increase in the severity of an environmental impact unless mitigation measures are adopted that reduce the impact to a level of insignificance;
- 3) A feasible project alternative or mitigation measure, considerably different from others previously analyzed, that clearly would lessen the significant environmental impacts of the project, but that the project’s proponents decline to adopt; or
- 4) The draft EIR was so fundamentally and basically inadequate and conclusory in nature that meaningful public review and comment were precluded.

**EVIDENCE:** a) No such significant new information has been added. Per Section 15088.5(b) of the CEQA Guidelines, recirculation of the draft EIR is not required where the new information merely clarifies, amplifies or makes minor modifications to an adequate EIR. The information provided since the draft EIR meets those criteria.

b) All the text revisions to the draft EIR and revisions to mitigation measures since the DEIR provide clarification and additional detail. The changes do not result in a new significant impact or substantial increase in the severity of an environmental impact and therefore recirculation is not required.

**11. FINDING: FISH AND GAME FEE** – For purposes of the Fish and Game Code, the project will have a significant adverse impact on the fish and wildlife resources upon which the wildlife depends.

**EVIDENCE:** a) The California Department of Fish and Wildlife (DFW) reviewed the DEIR. Analysis contained in the EIR and the record as a whole indicate the project could result in changes to the resources listed in DFW regulations. All land development projects that are subject to environmental review are subject to a State filing fee plus the County recording fee, unless the DFW determines that the project will have no effect on fish and wildlife resources. The site supports biological and forest resources. For purposes of the Fish and Game Code, the project will have a significant adverse impact on the fish and wildlife resources upon which the wildlife depends. Therefore, the project will be required to pay the State fee in effect at the time of the recordation of the Notice of Determination to the Monterey County Clerk/Recorder for processing said fee and posting the Notice of Determination (NOD).

- b) The application, plans and supporting materials submitted by the project applicant to Monterey County RMA-Planning for the proposed development found in Project File PLN 040061.
- c) Pebble Beach Company Inclusionary Housing Project Final EIR.

**12. FINDING: TREE REMOVAL** – The tree removal is the minimum required under the circumstances and the removal will not involve a risk of adverse environmental impacts.

- EVIDENCE:**
- a) The Alternative includes the removal of up to 435 trees (139 native trees, including Cottonwood, Sycamore, Willow, Box Elder and Coast Live Oak). In accordance with the applicable policies of the 2010 General Plan, Greater Monterey Peninsula Area Plan, Carmel Valley Master Plan and Monterey County Code (Title 16 and Title 21), a Use Permit is required and the criteria to grant said permit have been met.
  - b) A Restoration Plan was prepared by Zander Associates (2006) and incorporated into the Environmental Impact Report prepared for the project. The 130-unit Alternative is subject to Mitigation Measures BIO-4, BIO-5 and BIO-6.
  - c) The project site consists of approximately 81.7 acres of land used as a golf course for over 40 years. The southern portion of the property, adjacent to the Carmel River, includes more mature trees and natural terrain, but is still part of the West Course of the Rancho Canada Golf Club. As proposed, the development would result in the removal of up to approximately 435 trees.

**13. FINDING: WILDFIRE PROTECTION STANDARDS IN STATE RESPONSIBILITY AREAS** – The subject project, as conditioned, will ensure standardized basic emergency access and fire protection pursuant to Section 4290 of the Public Resource Code.

- EVIDENCE:**
- a) The project site is within the Monterey County State Responsibility Area, and the project would expose people and structures to risk of wildland fire where proposed residential development is adjacent to undeveloped open space.
  - b) Monterey County Code Section 18.56, Wildfire Protection Standards in State Responsibility Areas, requires that future design and construction of structures, subdivisions and developments in State Responsibility Areas shall provide for emergency access and perimeter wildfire protection measures. The proposed development, as designed and conditioned, provides for emergency access and fire suppression.
  - c) Emergency vehicle access to the project site would be from Carmel Valley Road .
  - d) Conditions of Approval have been applied to the project to ensure the following: 1) all driveways meet minimum requirements regarding width, surface, grade, and turning radius or turnaround; 2) maintenance of adequate defensible space around all structures; and 3)

all structures have adequate fire protection equipment [sprinkler systems], fire alarms systems, and roof construction.

- 14. FINDING: LONG-TERM SUSTAINABLE WATER SUPPLY AND ADEQUATE WATER SUPPLY SYSTEM** – The project has a long-term, sustainable water supply, both in quality and quantity, and an adequate water supply system to serve the development as required by General Plan Policies PS-3.1 and PS-3.2, respectively.
- EVIDENCE:**
- a) The new development will use or require the use of water. The 130 residential units and associated facilities will use approximately 70 acre feet per year (AFY) of water and up to 60 AFY is proposed to be transferred to Cal-Am users through a subsequent permit issued by the Monterey Peninsula Water Management District. (MPWMD)
  - b) The fundamental intent of the County General Plan Goal PS-3 and associated policies is that new development must have a long-term water supply in terms of quantity and quality. The analysis shows that the 130-unit Alternative would not increase consumptive water use, would result in increased recharge to the Carmel Valley Alluvial Aquifer, and would not result in any substantial adverse effect on Carmel River instream flows. In regards to quality, the 130-unit Alternative would draw water from the same location that Cal-Am currently draws water to serve its customers. Regardless of the mode of water delivery for the proposed residential use (Cal-Am distribution system or a separate community services district or mutual water company), the water can be treated to all regulatory standards just like the water being drawn at present from Cal-Am wells on the Rancho Canada Golf Course property and in nearby adjacent areas. Thus, the water source is of an acceptable water quality.
  - c) The proposed water supply for this project was reviewed using the criteria in County General Plan Policy PS-3.2 (Policy criteria in italics):
    - *Water Quality:* Water is the same quality as current local Cal-Am wells and is thus of acceptable water quality.
    - *Authorized production capacity of a facility operating pursuant to a permit from a regulatory agency, production capability, and any adverse effect on the economic extraction of water or other effect on wells in the immediate vicinity, including recovery rates:* The analysis in the FEIR shows that the on-site pumping levels would be less than baseline pumping levels which will help with groundwater recharge and thus would have no adverse effects to other wells or groundwater level recovery.
    - *Technical, managerial and financial capability of the water purveyor or water system operator:* If the project is served by Cal-Am, it has proven capabilities to deliver water. If a separate water system is proposed, the Project Applicant will be required to obtain all necessary permits for the separate

water delivery system and to demonstrate to the County's satisfaction that the water delivery system can deliver water consistently and perpetually to the project. With mitigation, the project's water supply can meet this criteria.

- *The source of the water supply and the nature of the right(s) to water from the source:* There are riparian rights associated with the project site that meet the water needs of either the Project or Alternative. The Applicant is also seeking to obtain an appropriative right from the SWRCB in order to facilitate the proposed water transfer.
- *Cumulative impacts of existing and projected future demand for water from the source, and the ability to reverse trends contributing to an overdraft condition or otherwise affecting supply:* Cumulative conditions were taken into account when establishing significance criteria for the water supply analysis in the EIR as no net increase in consumptive water use, no net reduction in groundwater recharge, and no substantial adverse change in instream flows in the Carmel River. The project's water supply impact will not exceed any of the significance criteria. The project would reduce water use relative to baseline and help to reverse cumulative trends of water supply impacts on the Carmel River.
- *Effects of additional extraction or diversion of water on the environment including on in-stream flows necessary to support riparian vegetation, wetlands, fish or other aquatic life, and the migration potential for steelhead, for the purpose of minimizing impacts on the environment and to those resources and species:* The project's water supply will not result in a net increase in consumptive water use, no net reduction in groundwater recharge, and no substantial adverse change in instream flows in the Carmel River. Thus, it will not result in any additional extraction or diversion of water impacts on the environment and will not result in impacts to riparian vegetation, wetlands, fish or other aquatic life, or migration potential for steelhead. The project instead should benefit riparian vegetation, wetlands, fish and other aquatic life and help improve spring and summer instream flows.
- *Completion and operation of new projects, or implementation of best practices, to renew or sustain aquifer or basin functions:* The project will not adversely affect aquifer or basin functions and will not hinder other efforts to renew aquifer or basin functions, such as the development of an alternative water supply to Cal-Am's withdrawals in excess of its current water rights or the dedication of water to instream uses by others.

The project will instead contribute to sustaining aquifer and basin functions.

- *The hauling of water shall not be a fact or nor a criterion for the proof of a long term sustainable water supply:* Hauling of water is not proposed by either the Project or the Alternative.

- With proposed Mitigation Measure PS-1 to ensure delivery of the project's water supply and constrain it to a maximum of the amounts estimated in this EIR, the Proposed Project or the 130-unit Alternative is considered to have a long-term sustainable water supply because it has already met the relevant criteria and/or will be required to meet the relevant criteria prior to issuance of any building permits.

**15. FINDING: SUBDIVISION** – Section 66474 of the California Government Code (Subdivision Map Act) and Title 19 (Subdivision Ordinance) of the Monterey County Code require that a request for subdivision be denied if any of the following findings are made:

1. That the proposed map is not consistent with the applicable general plan and specific plans.
2. That the design or improvement of the proposed subdivision is not consistent with the applicable general plan and specific plans.
3. That the site is not physically suitable for the type of development.
4. That the site is not physically suitable for the proposed density of development.
5. That the design of the subdivision or the proposed improvements is likely to cause substantial environmental damage or substantially and avoidably injure fish or wildlife or their habitat.
6. That the design of the subdivision or type of improvements is likely to cause serious public health problems.
7. That the design of the subdivision or the type of improvements will conflict with easements, acquired by the public at large, for access through or use of property within the proposed subdivision.

**EVIDENCE:** a.) The Alternative includes a General Plan text Amendment to ensure consistency with the General Plan. The design and improvements included in the Alternative are consistent with the General Plan and provide benefits to surrounding properties. The site is physically suitable for the type of development at the density proposed. The Alternative will not cause substantial environmental damage or result in damage to fish and wildlife and their habitat. The Alternative not result in any serious public health problems and will not conflict with easements or access acquired for the public; conversely, the Alternative will enhance public access and grant an easement to improve offsite drainage.

**16. FINDING: INCLUSIONARY HOUSING:** The Alternative complies with the Inclusionary Housing Ordinance (Chapter 18.40) requirement to

**EVIDENCE** a) provide a minimum of 20% onsite affordable housing units. Unusual circumstances (pursuant to Section 18.40.050B.2 of Monterey County Code) may exist making it appropriate to modify the requirements of the Inclusionary Ordinance so that 20% Moderate-income housing, as proposed by the Alternative, is allowed in-lieu of the required 8% Moderate-income, 6% Low-income and 6% Very Low-income.

**17. FINDING:** **PROCESS:** The Planning Commission considered the draft Final EIR, the General Plan amendment, rezoning, and project application at a duly noticed public hearing on November 16, 2016, at which hearing all persons had the opportunity to be heard.

**EVIDENCE** a) Public notice for the November 16 Planning Commission was provided through notice in the Monterey County Weekly of general circulation, mailing to residents within 300 feet of the Alternative project site, onsite posting of notices, and mailing to interested parties who had previously asked to receive notice. The Planning Commission also held a publicly-noticed workshop on the RCV Project and Alternative on September 14, 2016.

### **DECISION**

**NOW, THEREFORE**, based on the above findings and evidence and the administrative record as a whole, the Planning Commission does hereby recommend that the Board of Supervisors take the following actions:

1. Certify the Rancho Canada Village Environmental Impact Report (EIR) (SCH#: 20006081150);
2. Adopt the above CEQA findings for Project approval and Statement of Overriding Considerations;
3. Amend the text of General Plan Policy CV-1.27 so that the 130-unit Alternative shall be required to provide a minimum of 20% affordable housing, rather than 50%, affordable/workforce housing;
4. Rezone the 130-unit Alternative site that occupies the former Rancho Canada West Course from Public/Quasi-Public (P/Q-P) to Medium-Density Residential (MDR) and Lot 130 from Public/Quasi-Public (P/Q-P) to Low-Density Residential (LDR);
5. Approve the Rancho Canada Village Subdivision Project 130-unit Alternative, consisting of a:
  - a. Vesting Tentative Subdivision Map for the 130-unit Alternative, subdividing 81.7 acres into 130 residential lots, common areas and roadways and a 39.4-acre open space lot;
  - b. Combined Development Permit for development in the Carmel River Floodplain; tree removal, allowing the removal of up to 139 native trees; and grading and infrastructure installation, including installation of a below-grade drainage pipe and culvert to improve area-wide flood control and drainage, in general conformance with the attached plans and subject to 135 conditions, all being attached hereto and incorporated herein by reference; and
6. Adopt the attached Mitigation Monitoring and Reporting Plan.

**PASSED AND ADOPTED** this 16<sup>th</sup> day of November, 2016, upon motion of Commissioner \_\_\_\_\_, seconded by Commissioner \_\_\_\_\_, by the following vote:

- AYES:
- NOES:
- ABSENT:
- ABSTAIN:

---

Jacqueline R. Onciano, Planning Commission Secretary

COPY OF THIS DECISION MAILED TO APPLICANT ON \_\_\_\_\_.

This decision, if this is the final administrative decision, is subject to judicial review pursuant to California Code of Civil Procedure Sections 1094.5 and 1094.6. Any Petition for Writ of Mandate must be filed with the Court no later than the 90th day following the date on which this decision becomes final.

NOTES

1. You will need a building permit and must comply with the Monterey County Building Ordinance in every respect.

Additionally, the Zoning Ordinance provides that no building permit shall be issued, nor any use conducted, otherwise than in accordance with the conditions and terms of the permit granted or until ten days after the mailing of notice of the granting of the permit by the appropriate authority, or after granting of the permit by the Board of Supervisors in the event of appeal.

Do not start any construction or occupy any building until you have obtained the necessary permits and use clearances from Monterey County RMA-Planning and RMA-Building Services in Salinas.

2. This permit expires 3 years after the above date of granting thereof unless construction or use is started within this period.

# Monterey County RMA Planning

## DRAFT Conditions of Approval/Implementation Plan/Mitigation Monitoring and Reporting Plan

PLN040061

### 1. PD001 - SPECIFIC USES ONLY

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** The Rancho Canada Village Ventures Combined Development Permit (PLN040061) allows: 1) A Vesting Tentative Map for a 130 unit subdivision consisting mostly of single family attached and detached lots along, with 12 condominium units, and a 4.3 acre non contiguous parcel; 2) A Use Permit to allow development in the Carmel River floodplian; 3) A Use Permit to allow the removal of 435 trees; 4) A Use Permit for Development within the site plan review zoning district; and 5) A Design Approval. The property is approximately 40 acres located at 4860 Carmel Valley Road; the West Course of the Rancho Canada Golf Club (Assessor's Parcel Numbers 015-162-009-000; 015-162-016-000; 015-162-017-000; 015-162-025-000; 015-162-026-000; 015-162-027-000; 015-162-033-000; 015-162-039-000; 015-162-040-000; 015-162-041-000; 015-162-042-000; 015-162-043-000; 015-162-045-000; 015-162-046-000; and 015-162-047-000), Carmel Valley Master Plan area. This permit was approved in accordance with County ordinances and land use regulations subject to the terms and conditions described in the project file. Neither the uses nor the construction allowed by this permit shall commence unless and until all of the conditions of this permit are met to the satisfaction of the Director of RMA - Planning. Any use or construction not in substantial conformance with the terms and conditions of this permit is a violation of County regulations and may result in modification or revocation of this permit and subsequent legal action. No use or construction other than that specified by this permit is allowed unless additional permits are approved by the appropriate authorities. To the extent that the County has delegated any condition compliance or mitigation monitoring to the Monterey County Water Resources Agency, the Water Resources Agency shall provide all information requested by the County and the County shall bear ultimate responsibility to ensure that conditions and mitigation measures are properly fulfilled. (RMA - Planning)

**Compliance or Monitoring Action to be Performed:** The Owner/Applicant shall adhere to conditions and uses specified in the permit on an ongoing basis unless otherwise stated.

## 2. PD002 - NOTICE PERMIT APPROVAL

**Responsible Department:** RMA-Planning

**Condition/Mitigation** The applicant shall record a Permit Approval Notice. This notice shall state:

**Monitoring Measure:**

"A Combined Development Permit and Vesting Tentative standard subdivision (Resolution Number \*\*\*) was approved by the Board of Supervisors for Assessor's Parcel Parcel Numbers 015-162-009-000; 015-162-016-000; 015-162-017-000; 015-162-025-000; 015-162-026-000; 015-162-027-000; 015-162-033-000; 015-162-039-000; 015-162-040-000; 015-162-041-000; 015-162-042-000; 015-162-043-000; 015-162-045-000; 015-162-046-000; and 015-162-047-000 on December 13, 2016. The permit was granted subject to 119 conditions of approval which run with the land. A copy of the permit is on file with Monterey County RMA - Planning."

Proof of recordation of this notice shall be furnished to the Director of RMA - Planning prior to issuance of grading and building permits, Certificates of Compliance, or commencement of use, whichever occurs first and as applicable. (RMA - Planning)

**Compliance or  
Monitoring  
Action to be Performed:**

Prior to the issuance of grading and building permits, certificates of compliance, or commencement of use, whichever occurs first and as applicable, the Owner/Applicant shall provide proof of recordation of this notice to the RMA - Planning.

### 3. PD003(B) - CULTURAL RESOURCES POSITIVE ARCHAEOLOGICAL REPORT

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** If archaeological resources or human remains are accidentally discovered during construction, the following steps will be taken:

There shall be no further excavation or disturbance of the site or any nearby area reasonably suspected to overlie adjacent human remains until the coroner of the county in which the remain are discovered must be contacted to determine that no investigation of the cause of death is required.

If the coroner determines the remains to be Native American:

- The coroner shall contact the Native American Heritage Commission and RMA - Planning within 24 hours.
- The Native American Heritage Commission shall identify the person or persons from a recognized local tribe of the Esselen, Salinan, Costonoans/Ohlone and Chumash tribal groups, as appropriate, to be the most likely descendant.
- The most likely descendant may make recommendations to the landowner or the person responsible for the excavation work, for means of treating or disposing of, with appropriate dignity, the human remains and any associated grave goods as provided in Public Resources Code Section 5097.9 and 5097.993, Or

Where the following conditions occur, the landowner or his authorized representatives shall rebury the Native American human remains and associated grave goods with appropriate dignity on the property in a location not subject to further subsurface disturbance:

1. The Native American Heritage Commission is unable to identify a most likely descendant or the most likely descendant failed to make a recommendation within 24 hours after being notified by the commission.
2. The descendant identified fails to make a recommendation; or
3. The landowner or his authorized representative rejects the recommendation of the descendant, and the mediation by the Native American Heritage Commission fails to provide measures acceptable to the landowner.

(RMA - Planning)

**Compliance or Monitoring Action to be Performed:** Prior to the issuance of grading or building permits or approval of Subdivision Improvement Plans, whichever occurs first, the Owner/Applicant, per the archaeologist, shall submit the contract with a Registered Professional Archaeologist for on-call archaeological services should resources be discovered during construction activities. Submit the letter to the Director of the RMA – Planning for approval.

Prior to the issuance of grading or building permits and/or prior to the recordation of the final/parcel map, whichever occurs first, the Owner/Applicant shall include requirements of this condition as a note on all grading and building plans, on the Subdivision Improvement Plans, in the CC&Rs, and shall be included as a note on an additional sheet of the final/parcel map.

Prior to Final, the Owner/Applicant, per the Archaeologist, shall submit a report or letter from the archaeologist summarizing their methods, findings, and recommendations if their services are needed during construction or if no resources were found.

#### 4. PD005 - FISH & GAME FEE NEG DEC/EIR

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** Pursuant to the State Public Resources Code Section 753.5, State Fish and Game Code, and California Code of Regulations, the applicant shall pay a fee, to be collected by the County, within five (5) working days of project approval. This fee shall be paid before the Notice of Determination is filed. If the fee is not paid within five (5) working days, the project shall not be operative, vested or final until the filing fees are paid. (RMA - Planning)

**Compliance or Monitoring Action to be Performed:** Within five (5) working days of project approval, the Owner/Applicant shall submit a check, payable to the County of Monterey, to the Director of RMA - Planning.

If the fee is not paid within five (5) working days, the applicant shall submit a check, payable to the County of Monterey, to the Director of RMA - Planning prior to the recordation of the final/parcel map, the start of use, or the issuance of building permits or grading permits.

#### 5. PD006 - CONDITION OF APPROVAL / MITIGATION MONITORING PLAN

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** The applicant shall enter into an agreement with the County to implement a Condition of Approval/Mitigation Monitoring and/or Reporting Plan (Agreement) in accordance with Section 21081.6 of the California Public Resources Code and Section 15097 of Title 14, Chapter 3 of the California Code of Regulations. Compliance with the fee schedule adopted by the Board of Supervisors for mitigation monitoring shall be required and payment made to the County of Monterey at the time the property owner submits the signed Agreement. The agreement shall be recorded. (RMA - Planning)

**Compliance or Monitoring Action to be Performed:** Within sixty (60) days after project approval or prior to the issuance of building and grading permits, whichever occurs first, the Owner/Applicant shall:

- 1) Enter into an agreement with the County to implement a Condition of Approval/Mitigation Monitoring Plan.
- 2) Fees shall be submitted at the time the property owner submits the signed Agreement.
- 3) Proof of recordation of the Agreement shall be submitted to RMA-Planning.

#### 6. PD007- GRADING WINTER RESTRICTION

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** No land clearing or grading shall occur on the subject parcel between October 15 and April 15 unless authorized by the Director of RMA - Building Services. (RMA - Planning and RMA - Building Services)

**Compliance or Monitoring Action to be Performed:** The Owner/Applicant, on an on-going basis, shall obtain authorization from the Director of RMA - Building Services Department to conduct land clearing or grading between October 15 and April 15.

## 7. PD011 - TREE AND ROOT PROTECTION

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** Trees which are located close to construction site(s) shall be protected from inadvertent damage from construction equipment by fencing off the canopy driplines and/or critical root zones (whichever is greater) with protective materials, wrapping trunks with protective materials, avoiding fill of any type against the base of the trunks and avoiding an increase in soil depth at the feeding zone or drip-line of the retained trees. Said protection, approved by certified arborist, shall be demonstrated prior to issuance of building permits subject to the approval of RMA - Director of Planning. If there is any potential for damage, all work must stop in the area and a report, with mitigation measures, shall be submitted by certified arborist. Should any additional trees not included in this permit be harmed, during grading or construction activities, in such a way where removal is required, the owner/applicant shall obtain required permits. (RMA - Planning)

**Compliance or Monitoring Action to be Performed:** Prior to issuance of grading and/or building permits, the Owner/Applicant shall submit evidence of tree protection to RMA - Planning for review and approval.

During construction, the Owner/Applicant/Arborist shall submit on-going evidence that tree protection measures are in place through out grading and construction phases. If damage is possible, submit an interim report prepared by a certified arborist.

Prior to final inspection, the Owner/Applicant shall submit photos of the trees on the property to RMA-Planning after construction to document that tree protection has been successful or if follow-up remediation or additional permits are required.

## 8. PD013 - STREET LIGHTING

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** All street lights in the development shall be approved by the Director of RMA - Planning.  
(RMA - Planning Department)

**Compliance or Monitoring Action to be Performed:** Prior to the issuance of grading or building permits for street lights, the Owner/Applicant shall submit three copies of the lighting plans to the RMA - Planning for review and approval. Approved lighting plans shall be incorporated into final building plans.

Prior to occupancy and on an on-going basis, the Owner/Applicant shall ensure that the lighting is installed and maintained in accordance with the approved plan.

## 9. PD015 - NOTE ON MAP-STUDIES

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** A note shall be placed on the final map or a separate sheet to be recorded with the final map and shall be included on the subdivision improvement plan, subdivision grading permit and in the CC&R's stating that:

The following reports have been prepared for the Rancho Canada Village project:

- Geotechnical Reports;
- Hydrogeological Reports
- Drainage Reports;
- Traffic Reports;
- Archaeological Reports;
- Air Quality Reports;
- Noise Impact Analysis;
- Biological Resources Reports;
- Foresters Reports;

These reports are on file in Monterey County RMA - Planning. Recommendations contained in said reports shall be followed in further development of this property.

The note shall be located in a conspicuous location, subject to the approval of the County Surveyor.

(RMA - Planning)

**Compliance or Monitoring Action to be Performed:** Prior to recordation of final/parcel map, the Owner Applicant shall submit the final map with notes to the RMA - Planning and RMA - Public Works for review and approval.

## 10. PD032(A) - PERMIT EXPIRATION

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** The permit shall be granted for a time period of 3 years, to expire on December 13, 2019 unless use of the Final Map has been filed. (RMA-Planning)

**Compliance or Monitoring Action to be Performed:** Prior to the expiration date stated in the condition, the Owner/Applicant shall Final the Final Map. Any request for extension must be received by RMA-Planning at least 30 days prior to the expiration date.

## 11. PD035 - UTILITIES UNDERGROUND

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** All new utility and distribution lines shall be placed underground. (RMA - Planning and RMA- Public Works)

**Compliance or Monitoring Action to be Performed:** On an on-going basis, the Owner/Applicant shall install and maintain utility and distribution lines underground.

## 12. PD036 - UTILITIES-SUBDIVISION

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** A note shall be placed on the parcel/final map or a separate sheet to be recorded with the parcel/final map indicating that "Underground utilities are required in this subdivision in accordance with Chapter 19.10.095, Title 19 of the Monterey County Code." Such facilities shall be installed or bonded through a Subdivision Improvement Agreement prior to filing the parcel/final map. The note shall be located in a conspicuous manner subject to the approval of the Director of RMA-Public Works. (RMA - Planning)

**Compliance or Monitoring Action to be Performed:** Prior to recording the parcel/final map, the Owner/Applicant shall place a note on the map or on a separate sheet and submit to RMA - Planning for review and approval.

The Owner/Applicant shall install or bond through a a Subdivision Improvement Agreement for the underground utility facilities.

## 13. PD050 - RAPTOR/MIGRATORY BIRD NESTING

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** Any tree removal activity that occurs during the typical bird nesting season (February 22-August 1), the County of Monterey shall require that the project applicant retain a County qualified biologist to perform a nest survey in order to determine if any active raptor or migratory bird nests occur within the project site or within 300 feet of proposed tree removal activity. During the typical nesting season, the survey shall be conducted no more than 30 days prior to ground disturbance or tree removal. If nesting birds are found on the project site, an appropriate buffer plan shall be established by the project biologist. (RMA - Planning)

**Compliance or Monitoring Action to be Performed:** No more than 30 days prior to ground disturbance or tree removal, the Owner/Applicant/Tree Removal Contractor shall submit to RMA-Planning a nest survey prepared by a County qualified biologist to determine if any active raptor or migratory bird nests occur within the project site or immediate vicinity.

**14. CC01 INDEMNIFICATION AGREEMENT**

**Responsible Department:** County Counsel

**Condition/Mitigation Monitoring Measure:** The property owner agrees as a condition and in consideration of approval of this discretionary development permit that it will, pursuant to agreement and/or statutory provisions as applicable, including but not limited to Government Code Section 66474.9, defend, indemnify and hold harmless the County of Monterey or its agents, officers and employees from any claim, action or proceeding against the County or its agents, officers or employees to attack, set aside, void or annul this approval, which action is brought within the time period provided for under law, including but not limited to, Government Code Section 66499.37, as applicable. The property owner will reimburse the County for any court costs and attorney's fees which the County may be required by a court to pay as a result of such action. The County may, at its sole discretion, participate in the defense of such action; but such participation shall not relieve applicant of his/her/its obligations under this condition. An agreement to this effect shall be recorded upon demand of County Counsel or concurrent with the issuance of building permits, use of property, filing of the final map, recordation of the certificates of compliance whichever occurs first and as applicable. The County shall promptly notify the property owner of any such claim, action or proceeding and the County shall cooperate fully in the defense thereof. If the County fails to promptly notify the property owner of any such claim, action or proceeding or fails to cooperate fully in the defense thereof, the property owner shall not thereafter be responsible to defend, indemnify or hold the County harmless. (County Counsel)

**Compliance or Monitoring Action to be Performed:** Upon demand of County Counsel or concurrent with the issuance of building permits, use of the property, recording of the final/parcel map, or recordation of Certificates of Compliance, whichever occurs first and as applicable, the Owner/Applicant shall submit a signed and notarized Indemnification Agreement to the County Counsel for review and signature by the County.

Proof of recordation of the Indemnification Agreement, as outlined, shall be submitted to the Office of County Counsel.

**15. CALIFORNIA CONSTRUCTION GENERAL PERMIT**

**Responsible Department:** Environmental Services

**Condition/Mitigation Monitoring Measure:** The applicant shall submit a Waste Discharger Identification (WDID) number certifying the project is covered under the California Construction General Permit. (RMA-Environmental Services)

**Compliance or Monitoring Action to be Performed:** Prior to issuance of any grading or building permits, the applicant shall submit a WDID number certifying the project is covered under the California Construction General Permit or a letter of exemption from the Central Coast Regional Water Quality Control Board.

## 16. FIELD VERIFICATION OF POST-CONSTRUCTION STORMWATER CONTROL MEASURES (PR4)

**Responsible Department:** Environmental Services

**Condition/Mitigation Monitoring Measure:** The applicant shall provide certification from a registered Professional Engineer that the stormwater control facilities have been constructed in accordance with the approved Stormwater Control Plan. (RMA – Environmental Services)

**Compliance or Monitoring Action to be Performed:** Prior to final inspection, the owner/applicant shall submit a letter to RMA-Environmental Services for review and approval.

## 17. GEOTECHNICAL CERTIFICATION

**Responsible Department:** Environmental Services

**Condition/Mitigation Monitoring Measure:** The applicant shall provide certification from a licensed practitioner that all development has been constructed in accordance with the recommendations in the project Geotechnical Report.  
(RMA- Environmental Services)

**Compliance or Monitoring Action to be Performed:** Prior to final inspection, the owner/applicant shall provide RMA-Environmental Services a letter from a licensed practitioner.

## 18. GEOTECHNICAL REPORT

**Responsible Department:** Environmental Services

**Condition/Mitigation Monitoring Measure:** The applicant shall submit a geotechnical report with project specific recommendations. The report shall include data regarding the nature, distribution, and strength of existing soils, as well as, a description of the site geology and any applicable geologic hazards. (RMA – Environmental Services)

**Compliance or Monitoring Action to be Performed:** Prior to issuance of any grading or building permits, the applicant shall submit a geotechnical report to RMA-Environmental Services for review and approval.

## 19. GRADING PLAN

**Responsible Department:** Environmental Services

**Condition/Mitigation Monitoring Measure:** The applicant shall submit a grading plan incorporating the recommendations from the project geotechnical report. The grading plan shall include contour intervals and cross-sections that identify the existing grade, proposed grade, and the extent of any proposed excavation and/or fill. The grading plan shall include the geotechnical inspection schedule that identifies when the inspections will be completed, who will conduct the inspection (i.e., PG, PE, and/or Special Inspector), a description of the required inspection, inspector name, and the completion date. The applicant shall also provide certification from the licensed practitioner that the grading plan incorporates their geotechnical recommendations. (RMA-Environmental Services)

**Compliance or Monitoring Action to be Performed:** Prior to issuance of any grading or building permits, the applicant shall submit a grading plan to RMA-Environmental Services for review and approval.

Prior to issuance of any grading or building permits, the applicant shall submit certification from a licensed practitioner that they have reviewed the grading plan for conformance with the geotechnical recommendations.

## 20. INSPECTION-DURING ACTIVE CONSTRUCTION

**Responsible Department:** Environmental Services

**Condition/Mitigation Monitoring Measure:** The applicant shall schedule an inspection with RMA-Environmental Services to inspect drainage device installation, review the maintenance and effectiveness of BMPs installed, and to verify that pollutants of concern are not discharged from the site. At the time of the inspection, the applicant shall provide certification that all necessary geotechnical inspections have been completed to that point. This inspection requirement shall be noted on the Erosion Control Plan. (RMA – Environmental Services)

**Compliance or Monitoring Action to be Performed:** During construction, the applicant shall schedule an inspection with RMA-Environmental Services.

## 21. INSPECTION-FOLLOWING ACTIVE CONSTRUCTION

**Responsible Department:** Environmental Services

**Condition/Mitigation Monitoring Measure:** The applicant shall schedule an inspection with RMA-Environmental Services to ensure all disturbed areas have been stabilized and all temporary erosion and sediment control measures that are no longer needed have been removed. This inspection requirement shall be noted on the Erosion Control Plan. (RMA – Environmental Services)

**Compliance or Monitoring Action to be Performed:** Prior to final inspection, the owner/applicant shall schedule an inspection with RMA-Environmental Services.

## 22. INSPECTION-PRIOR TO LAND DISTURBANCE

**Responsible Department:** Environmental Services

**Condition/Mitigation Monitoring Measure:** The applicant shall schedule an inspection with RMA-Environmental Services to ensure all necessary sediment controls are in place and the project is compliant with Monterey County regulations. This inspection requirement shall be noted on the Erosion Control Plan. (RMA – Environmental Services)

**Compliance or Monitoring Action to be Performed:** Prior to commencement of any land disturbance, the owner/applicant shall schedule an inspection with RMA-Environmental Services.

## 23. FIRE001 - ROAD ACCESS

**Responsible Department:** Fire

**Condition/Mitigation Monitoring Measure:** Access roads shall be required for every building when any portion of the exterior wall of the first story is located more than 150 feet from fire department access. All roads shall be constructed to provide a minimum of two nine-foot traffic lanes with an unobstructed vertical clearance of not less than 15 feet. The roadway surface shall provide unobstructed access to conventional drive vehicles including sedans and fire apparatus and shall be an all-weather surface designed to support the imposed load of fire apparatus (22 tons). Each road shall have an approved name.

Responsible Land Use Department: Cypress Fire District

**Compliance or Monitoring Action to be Performed:** Prior to issuance of grading and/or building permits, the Applicant shall incorporate the specification of the roadway into design and print the text of this condition as Fire Department Notes on plans.

Prior to requesting a final building inspection, the Applicant shall complete the installation of roadway improvements and obtain fire department approval the final fire inspection.

## 24. FIRE002 - ROADWAY ENGINEERING

**Responsible Department:** Fire

**Condition/Mitigation Monitoring Measure:** The grade for all roads shall not exceed 15 percent. Where road grades exceed 8 percent, a minimum structural roadway surface of 0.17 feet of asphaltic concrete on 0.34 feet of aggregate base shall be required. The length of vertical curves in roadways, exclusive of gutters, ditches and drainage structures designed to hold or divert water, shall not be less than 100 feet. No roadway turn shall have a horizontal inside radius of less than 50 feet. A roadway turn radius of 50 to 100 feet is required to have an additional 4 feet of roadway surface. A roadway turn radius of 100 to 200 feet is required to have an additional 2 feet of roadway surface. Roadway turnarounds shall be required on dead-end roads in excess of 150 feet of surface length. The minimum turning radius for a turnaround shall be 40 feet from the center line of the road. If a hammerhead/T is used, the top of the "T" shall be a minimum of 60 feet in length. Responsible Land Use Department: Cypress Fire District

**Compliance or Monitoring Action to be Performed:** Prior to issuance of grading and/or building permits, the Applicant shall incorporate the specification of the roadway into design and print the text of this condition as 'Fire Department Notes' on improvement plans.

Prior to issuance of building permit(s) for development on individual lots within the phase of the subdivision, the Applicant shall complete the installation of the roadway improvements and shall obtain fire dept. approval of the fire clearance inspection for each phase of development.

Prior to requesting a final building inspection, the Applicant shall complete the installation of roadway improvements and obtain fire department approval the final fire inspection.

## 25. FIRE007 - DRIVEWAYS

**Responsible Department:** Fire

**Condition/Mitigation Monitoring Measure:** Driveways shall not be less than 12 feet wide unobstructed, with an unobstructed vertical clearance of not less than 15 feet. The grade for all driveways shall not exceed 15 percent. Where the grade exceeds 8 percent, a minimum structural roadway surface of 0.17 feet of asphaltic concrete on 0.34 feet of aggregate base shall be required. The driveway surface shall be capable of supporting the imposed load of fire apparatus (22 tons), and be accessible by conventional-drive vehicles, including sedans. For driveways with turns 90 degrees and less, the minimum horizontal inside radius of curvature shall be 25 feet. For driveways with turns greater than 90 degrees, the minimum horizontal inside radius curvature shall be 28 feet. For all driveway turns, an additional surface of 4 feet shall be added. All driveways exceeding 150 feet in length, but less than 800 feet in length, shall provide a turnout near the midpoint of the driveway. Where the driveway exceeds 800 feet, turnouts shall be provided at no greater than 400-foot intervals. Turnouts shall be a minimum of 12 feet wide and 30 feet long with a minimum of 25-foot taper at both ends. Turnarounds shall be required on driveways in excess of 150 feet of surface length and shall be located within 50 feet of the primary building. The minimum turning radius for a turnaround shall be 40 feet from the center line of the driveway. If a hammerhead/T is used, the top of the "T" shall be a minimum of 60 feet in length. Responsible Land Use Department: Cypress Fire District

**Compliance or Monitoring Action to be Performed:** Prior to issuance of grading and/or building permits, the Applicant shall incorporate the specification of the driveway into design and print the text of this condition as "Fire Department Notes" on plans.

Prior to requesting a final building inspection, the Applicant shall complete the installation of driveway improvements and obtain fire department approval the final fire inspection.

## 26. FIRE008 - GATES

**Responsible Department:** Fire

**Condition/Mitigation Monitoring Measure:** All gates providing access from a road to a driveway shall be located at least 30 feet from the roadway and shall open to allow a vehicle to stop without obstructing traffic on the road. Gate entrances shall be at least the width of the traffic lane but in no case less than 12 feet wide. Where a one-way road with a single traffic lane provides access to a gated entrance, a 40-foot turning radius shall be used. Where gates are to be locked, the installation of a key box or other acceptable means for immediate access by emergency equipment may be required. Responsible Land Use Department: Cypress Fire District

**Compliance or Monitoring Action to be Performed:** Prior to issuance of grading and/or building permits, the Applicant shall incorporate the specification of the entry gate into design and print the text of this condition as "Fire Department Notes" on plans.

Prior to requesting a final building inspection, the Applicant shall complete the installation of the entry gate and obtain fire department approval the final fire inspection.

## 27. FIRE010 -ROAD SIGNS

**Responsible Department:** Fire

**Condition/Mitigation Monitoring Measure:** All newly constructed or approved roads and streets shall be designated by names or numbers, posted on signs clearly visible and legible from the roadway. Size of letters, numbers and symbols for street and road signs shall be a minimum 4-inch letter height, 1/2-inch stroke, and shall be a color that is reflective and clearly contrasts with the background color of the sign. All numerals shall be Arabic. Street and road signs shall be non-combustible and shall be visible and legible from both directions of vehicle travel for a distance of at least 100 feet. Height, visibility, legibility, and orientation of street and road signs shall be meet the provisions of Monterey County Ordinance No. 1241. This section does not require any entity to rename or renumber existing roads or streets, nor shall a roadway providing access only to a single commercial or industrial occupancy require naming or numbering. Signs required under this section identifying intersecting roads, streets and private lanes shall be placed at the intersection of those roads, streets and/or private lanes. Signs identifying traffic access or flow limitations (i.e., weight or vertical clearance limitations, dead-end road, one-way road or single lane conditions, etc.) shall be placed: (a) at the intersection preceding the traffic access limitation; and (b) not more than 100 feet before such traffic access limitation. Road, street and private lane signs required by this article shall be installed prior to final acceptance of road improvements by the Reviewing Fire Authority. Responsible Land Use Department: Cypress Fire District

**Compliance or Monitoring Action to be Performed:** Prior to filing of the final map, the Applicant shall incorporate the road sign specification into design and print the text of this condition as "Fire Department Notes" improvement plans.

Prior to issuance of building permit(s) for development on individual lots within the phase of the subdivision, the Applicant shall complete the installation of road signs and shall obtain fire dept. approval of the fire clearance inspection for each phase of development.

## 28. FIRE011 - ADDRESSES FOR BUILDINGS

**Responsible Department:** Fire

**Condition/Mitigation Monitoring Measure:** All buildings shall be issued an address in accordance with Monterey County Ordinance No. 1241. Each occupancy, except accessory buildings, shall have its own permanently posted address. When multiple occupancies exist within a single building, each individual occupancy shall be separately identified by its own address. Letters, numbers and symbols for addresses shall be a minimum of 4-inch height, 1/2-inch stroke, contrasting with the background color of the sign, and shall be Arabic. The sign and numbers shall be reflective and made of a noncombustible material. Address signs shall be placed at each driveway entrance and at each driveway split. Address signs shall be visible and legible from both directions of travel along the road. In all cases, the address shall be posted at the beginning of construction and shall be maintained thereafter. Address signs along one-way roads shall be visible from both directions of travel. Where multiple addresses are required at a single driveway, they shall be mounted on a single sign. Where a roadway provides access solely to a single commercial occupancy, the address sign shall be placed at the nearest road intersection providing access to that site. Permanent address numbers shall be posted prior to requesting final clearance. Responsible Land Use Department: Cypress Fire District

**Compliance or Monitoring Action to be Performed:** Prior to issuance of building permit, Applicant shall incorporate specification into design and print the text of this condition as "Fire Dept. Notes" on plans.

Prior to requesting a final building inspection, Applicant shall install the required address signage and shall obtain fire department approval of the fire department final inspection.

## 29. FIRE012 - EMERGENCY WATER STANDARDS - WATER SYSTEMS

**Responsible Department:** Fire

**Condition/Mitigation Monitoring Measure:** The provisions of this condition shall apply when new parcels are approved by a local jurisdiction. The emergency water system shall be available on-site prior to the completion of road construction, where a community water system is approved, or prior to the completion of building construction, where an individual system is approved. Approved water systems shall be installed and made serviceable prior to the time of construction. Water systems constructed, extended or modified to serve a new development, a change of use, or an intensification of use, shall be designed to meet, in addition to average daily demand, the standards shown in Table 2 of the Monterey County General Plan, NFPA Standard 1142, or other adopted standards. The quantity of water required pursuant to this chapter shall be in addition to the domestic demand and shall be permanently and immediately available Responsible Land Use Department: Cypress Fire District

**Compliance or Monitoring Action to be Performed:** Prior to issuance of building permit, Applicant shall incorporate specification into design and print the text of this condition as "Fire Dept. Notes" on improvement plans.

Prior to issuance of building permit(s) for development on individual lots within the phase of the subdivision, the Applicant shall complete the installation of water system improvements and shall obtain fire dept. approval of the fire clearance inspection for each phase of development.

**30. FIRE014 - EMERGENCY WATER STANDARDS - FIRE PROTECTION WATER SUPPLY - (SINGLE PARCEL)**

**Responsible Department:** Fire

**Condition/Mitigation Monitoring Measure:** For development of structures totaling less than 3,000 square feet on a single parcel, the minimum fire protection water supply shall be 4,900 gallons. For development of structures totaling 3,000 square feet or more on a single parcel, the minimum fire protection water supply shall be 9,800 gallons. For development of structures totaling more than 10,000 square feet on a single parcel, the reviewing authority may require additional fire protection water supply. Other water supply alternatives, including ISO Rural Class 8 mobile water systems, may be permitted by the fire authority to provide for the same practical effect. The quantity of water required by this condition shall be in addition to the domestic demand and shall be permanently and immediately available. Responsible Land Use Department: Cypress Fire District

**Compliance or Monitoring Action to be Performed:** Prior to issuance of grading and/or building permit, Applicant shall incorporate specification into design and print the text of this condition as "Fire Dept. Notes" on plans.

Prior to requesting a final building inspection, the Applicant shall complete the installation of the water system improvements and shall obtain fire department approval of the final fire inspection.

**31. FIRE015 - FIRE HYDRANTS/FIRE VALVES**

**Responsible Department:** Fire

**Condition/Mitigation Monitoring Measure:** A fire hydrant or fire valve is required. The hydrant or fire valve shall be 18 inches above grade, 8 feet from flammable vegetation, no closer than 4 feet and no further than 12 feet from a roadway, and in a location where fire apparatus using it will not block the roadway. The hydrant serving any building shall be not less than 50 feet and not more than 1000 feet by road from the building it is to serve. Minimum hydrant standards shall include a brass head and valve with at least one 2 1/2 inch National Hose outlet supplied by a minimum 4 inch main and riser. More restrictive hydrant requirements may be applied by the Reviewing Authority. Each hydrant/valve shall be identified with a reflectorized blue marker, with minimum dimensions of 3 inches, located on the driveway address sign, non-combustible post or fire hydrant riser. If used, the post shall be within 3 feet of the hydrant/valve, with the blue marker not less than 3 feet or greater than 5 feet above the ground, visible from the driveway. On paved roads or driveways, reflectorized blue markers shall be permitted to be installed in accordance with the State Fire Marshal's Guidelines for Fire Hydrant Markings Along State Highways and Freeways, May 1988. Responsible Land Use Department: Cypress Fire District

**Compliance or Monitoring Action to be Performed:** Prior to issuance of grading and/or building permit, Applicant shall incorporate specification into design and print the text of this condition as "Fire Dept. Notes" on construction plans.

Prior to requesting a final building inspection, the Applicant shall complete the installation of the water system improvements and shall obtain fire department approval of the final fire inspection.

### 32. FIRE017 - DISPOSAL OF VEGETATION AND FUELS

**Responsible Department:** Fire

**Condition/Mitigation Monitoring Measure:** Disposal, including chipping, burying, or removal to a landfill site approved by the local jurisdiction, of vegetation and debris caused by site development and construction, road and driveway construction, and fuel modification shall be completed prior to final clearance of the related permit. Responsible Land Use Department: Cypress Fire District

**Compliance or Monitoring Action to be Performed:** Prior to issuance of grading and/or building permit, Applicant shall incorporate specification into design and print the text of this condition as "Fire Dept. Notes" on construction plans.

Prior to requesting a final building inspection, the Applicant shall complete the vegetation management and disposal and shall obtain fire department approval of the final fire inspection

### 33. FIRE018 - GREENBELTS

**Responsible Department:** Fire

**Condition/Mitigation Monitoring Measure:** Subdivisions and other developments, which propose greenbelts as a part of the development plan, shall locate said greenbelts strategically as a separation between wildland fuels and structures. The locations shall be approved by the Reviewing Authority. Responsible Land Use Department: Cypress Fire District

**Compliance or Monitoring Action to be Performed:** Prior to filing of final map for subdivisions, Applicant shall incorporate specification into the improvement plans and print the text of this condition as "Fire Dept. Notes" on the improvement plans

Prior to issuance of building permits, Applicant shall complete the greenbelt(s) and shall obtain fire department approval of the subdivision improvements

### 34. NON-STANDARD CONDITION - HYDRANTS AND FIRE FLOW

**Responsible Department:** Fire

**Condition/Mitigation Monitoring Measure:** Hydrants for fire protection shall be provided at locations approved by the fire code official and shall conform to the following requirements:

- a. FIRE FLOW - Pursuant to California Fire Code Appendix B, the minimum fire flow requirement for square foot commercial facilities built with Type construction is gallons per minute with a residual pressure of 20 psi under normal operating conditions for a duration of hours. Fire flow for facilities protected with automatic fire sprinkler systems may be reduced to gallons per minute with a residual pressure of 20 psi under normal operating conditions for a duration of hours.
- b. TIMING OF INSTALLATION - Approved fire protection water supply systems must be installed and made serviceable prior to the time of construction.
- c. HYDRANT/FIRE VALVE (ADDITION) - New hydrant(s) shall be installed as determined by the fire code official.
- d. HYDRANT/FIRE VALVE (LOCATION) - The hydrant or fire valve shall be 18 inches above grade, 8 feet from flammable vegetation, no closer than 4 feet nor further than 12 feet from a roadway, and in a location where fire apparatus using it will not block the roadway.
- e. FIRE HYDRANTS - Hydrants shall be installed in accordance with spacing set forth in California Fire Code Appendix B and in accordance with the following specifications:
- f. HYDRANT SIZE - The hydrant shall have a minimum of two (2) inch outlets NST and one (1) inch outlet NST. The riser shall be a minimum of six (6) inches and shall be wet barrel type with a coefficient of 0.9.
- g. SIGNING OF WATER SOURCES - Hydrant or fire valve identification may be allowed as specified in the State Fire Marshal's Guidelines for Fire Hydrant Markings Along State Highways and Freeways, May 1988.

Responsible Land Use Department: Fire District

**Compliance or Monitoring Action to be Performed:** Prior to issuance of building permit, the Applicant shall print the text of this condition as "Fire Department Notes" on the improvement plans and/or construction plans, shall complete the installation of water system improvements and shall obtain fire department approval of the water system acceptance test.

### 35. EHSP01 - WATER SYSTEM ALTERNATIVES (NON-STANDARD)

**Responsible Department:** Health Department

**Condition/Mitigation Monitoring Measure:** The project includes three alternatives for domestic water service. Water for the new lots would be supplied by one of the following:

Alternative A: On-site wells and creation of a public water system; or

Alternative B: Individual meters at each home served by Cal-Am Water Company-Monterey water system; or

Alternative C: A single, master meter served by Cal-Am Water Company-Monterey water system and creation of a public water system to serve each individual lot.

The applicant will be required to comply with the conditions applied to the water system alternative that is ultimately pursued.

**Compliance or Monitoring Action to be Performed:** Prior to recordation of the first final map, the applicant shall comply with all conditions applicable to the water system alternative that is ultimately pursued.

### 36. EHSP02A - WATER SYSTEM PERMIT: ALTERNATIVE A (NON-STANDARD)

**Responsible Department:** Health Department

**Condition/Mitigation Monitoring Measure:** If the applicant elects to pursue water system Alternative A, the applicant shall demonstrate to the satisfaction of the Environmental Health Bureau ("EHB") that the on-site well(s) proposed to serve a new public water system meet minimum water quality, quantity and construction requirements. The applicant shall apply for a water system permit from the EHB and pay applicable fees.

**Compliance or Monitoring Action to be Performed:** Prior to recordation of the first final map, the applicant shall submit water quality analysis, source capacity documentation and well construction documentation for the well(s) proposed to serve the public water system. The applicant shall apply for and obtain a water system permit from the EHB and pay all applicable fees.

### 37. EHSP02B – WATER SYSTEM PERMIT: ALTERNATIVE B (NON-STANDARD)

**Responsible Department:** Health Department

**Condition/Mitigation Monitoring Measure:** If the applicant elects to pursue water system Alternative B, it is not necessary to amend the Cal-Am Water Company – Monterey water system permit.

**Compliance or Monitoring Action to be Performed:** Prior to recordation of the first final map, the applicant shall provide documentation to the satisfaction of the Environmental Health Bureau ("EHB") that the project will be served by Cal-Am Water Company – Monterey water system and specify that each lot will be provided an individual meter.

**38. EHSP02C – WATER SYSTEM PERMIT: ALTERNATIVE C (NON-STANDARD)**

**Responsible Department:** Health Department

**Condition/Mitigation Monitoring Measure:** If the applicant elects to pursue Alternative C, the applicant shall apply for a public water system permit from the Environmental Health Bureau and pay applicable fees.

**Compliance or Monitoring Action to be Performed:** Prior to recordation of the first final map, the applicant shall apply for and obtain a public water system permit from the Environmental Health Bureau and pay applicable fees.

**39. EHSP03AC- DESIGN WATER SYSTEM IMPROVEMENTS: ALTERNATIVE A OR C (NON-STANDARD)**

**Responsible Department:** Health Department

**Condition/Mitigation Monitoring Measure:** If the applicant elects to pursue either Alternative A or C, the applicant shall design the water system improvements to meet the standards as found in Titles 17 and 22 of the California Code of Regulations and as found in the Residential Subdivision Water Supply Standards. (Environmental Health)

**Compliance or Monitoring Action to be Performed:** Prior to recordation of the first final map, the applicant shall submit engineered plans for water system improvements to the Environmental Health Bureau (“EHB”) for review and approval.

**40. EHSP03B - DESIGN WATER SYSTEM IMPROVEMENTS: ALTERNATIVE B (NON-STANDARD)**

**Responsible Department:** Health Department

**Condition/Mitigation Monitoring Measure:** If the applicant elects to pursue Alternative B, the applicant shall design the water system improvements to meet the standards as found in Titles 17 and 22 of the California Code of Regulations and as found in the Residential Subdivision Water Supply Standards. (Environmental Health)

**Compliance or Monitoring Action to be Performed:** Prior to recordation of the first final map, the applicant shall submit engineered plans for water system improvements to the Environmental Health Bureau (“EHB”) and Cal-Am Water Company – Monterey water system for review and approval. Submit evidence of approval by Cal-Am Water Company – Monterey water system to EHB.

#### 41. EHSP04 – INSTALL OR BOND WATER SYSTEM

**Responsible Department:** Health Department

**Condition/Mitigation Monitoring Measure:** Pursuant to Monterey County Code Chapter 19.13 Improvement Agreements, the owner shall install the water system improvements to and within the subdivision and any appurtenances needed.

OR

The owner shall enter into a Subdivision Improvement Agreement with the County that shall provide security guaranteeing the installation of the water system improvements. (Environmental Health)

**Compliance or Monitoring Action to be Performed:** Prior to recordation of the first final map, install the water system improvements to and within the subdivision and any appurtenances needed and obtain approval of installation from Drinking Water Protection Services of the Environmental Health Bureau.

OR

Prior to recordation of the first final map, provide Environmental Health Bureau with a draft of the Subdivision Improvement Agreement for review and approval. Record the approved Subdivision Improvement Agreement concurrent with the first final map.

#### 42. EHSP05 - FIRE FLOW STANDARDS (NON-STANDARD)

**Responsible Department:** Health Department

**Condition/Mitigation Monitoring Measure:** Design the water system improvements to meet fire flow standards as required and approved by the local fire protection agency.

**Compliance or Monitoring Action to be Performed:** Prior to recordation of the first final map, the applicant shall submit plans for the proposed water system improvements to the local fire protection agency for review and approval. Submit a set of signed or wet-stamped water system plans approved by the local fire protection agency to the Environmental Health Bureau for review and acceptance.

#### 43. EHSP06 - WELL AND WATER SYSTEM EASEMENTS (NON-STANDARD)

**Responsible Department:** Health Department

**Condition/Mitigation Monitoring Measure:** The Final Map shall denote the proposed well easement(s), water distribution and tank easement(s), and access easement(s) for the water system to the Environmental Health Bureau for review and approval. Once approved, well lots and easements shall appear as part of the final map and shall meet the requirements of Monterey County Code, Section 15.04.050 and the California Code of Regulations, Title 22, Chapter 16, Section 64560 (Water Works Standards).

**Compliance or Monitoring Action to be Performed:** Prior to filing the first final map, the applicant shall submit a draft of the final map to the Environmental Health Bureau for review and approval.

#### 44. EHSP07 – WELL(S) NOT IN SERVICE (NON-STANDARD)

**Responsible Department:** Health Department

**Condition/Mitigation Monitoring Measure:** Pursuant to State of California Bulletin 74-90, and Chapter 15.08 of the Monterey County Code, a well is considered abandoned if it has not been used for one year, unless the owner demonstrate intention to use the well again. The well owner shall properly maintain an inactive well as evidence of intention for future use in accordance with the standards of Bulletin 74-90.

**Compliance or Monitoring Action to be Performed:** Prior to filing the first final map, the applicant shall submit to the Environmental Health Bureau (“EHB”) a log of all wells associated with the project, including but not limited to domestic water wells, which specifies the status of each well (active/inactive) and its long-term operational plan.

The EHB will determine if any well(s) is considered abandoned and in need of destruction. As determined to be necessary by the EHB, a CA licensed well drilling contractor shall obtain a well destruction permit from the Environmental Health Bureau on behalf of the property owner and destroy the well.

#### 45. EHSP08 – SEWER SYSTEM IMPROVEMENTS: DESIGN (NON-STANDARD)

**Responsible Department:** Health Department

**Condition/Mitigation Monitoring Measure:** Engineered plans for the sewer system, including all necessary appurtenances, shall be submitted to and approved by the Carmel Valley Wastewater District and the Environmental Health Bureau. Plans shall be in conformance with Monterey County Code, Chapter 19.13 and the California Code of Regulations, Title 24, Part 5 (California Plumbing Code).

**Compliance or Monitoring Action to be Performed:** Prior to filing the first final map, the applicant shall submit sewer system improvement plans to Environmental Health Bureau (“EHB”) and the Carmel Area Wastewater District (“CAWD”) for review and approval. Submit evidence to the EHB that plans have been reviewed and approved by CAWD.

#### 46. EHSP09 – SEWER SYSTEM IMPROVEMENTS: INSTALL/BOND (NON-STANDARD)

**Responsible Department:** Health Department

**Condition/Mitigation Monitoring Measure:** The applicant shall install the approved sewer system improvements to and within the subdivision and any appurtenances needed per Monterey County Code, Chapter 19.13 (Improvement Agreements).

OR

The developer shall enter into a Subdivision Improvement Agreement with the County that shall provide security guaranteeing the installation of the sewer system improvements per Monterey County Code, Chapter 19.13 (Improvement Agreements).

**Compliance or Monitoring Action to be Performed:** Prior to filing the first final parcel map, the applicant shall install the sewer system improvements to and within the subdivision and any appurtenances needed and obtain approval of installation from the Carmel Area Wastewater District (“CAWD”). Submit evidence of approval by CAWD to the Environmental Health Bureau (“EHB”).

OR

Prior to recordation of the first final map, the applicant shall provide EHB with a draft of the Subdivision Improvement Agreement for review and approval. Record the Subdivision Improvement Agreement with the first final map.

**47. PW0001 - ENCROACHMENT (COM)**

**Responsible Department:** RMA-Public Works

**Condition/Mitigation Monitoring Measure:** Obtain an encroachment permit from the Resource Management Agency (RMA) and construct roadway connections to Rio Road. The design and construction is subject to the approval of the Resource Management Agency.

**Compliance or Monitoring Action to be Performed:** Prior to or concurrent with issuance of building or grading permits, Owner/Applicant shall obtain an encroachment permit from RMA. Improvements are to be completed prior to occupancy or commencement of use. Applicant is responsible to obtain all permits and environmental clearances.

**48. PW0006 - CARMEL VALLEY TRAFFIC**

**Responsible Department:** RMA-Public Works

**Condition/Mitigation Monitoring Measure:** The Applicant shall pay the Carmel Valley Master Plan Area Traffic Mitigation fee pursuant to the Board of Supervisors Resolution NO. 95-140, adopted September 12, 1995 (Fees are updated annually based on CCI).

**Compliance or Monitoring Action to be Performed:** Prior to Building Permits Issuance Owner/Applicant shall pay to RMA the required traffic mitigation fee.

**49. PW0014 - DRAINAGE IMPROVEMENT STUDY**

**Responsible Department:** RMA-Public Works

**Condition/Mitigation Monitoring Measure:** Provide an on-site/off-site drainage improvement study prepared by a registered Civil Engineer. Study to include analysis of Drainage Area 27, the study to be approved by Public Works Department and the Water Resources Agency and shall be incorporated in the improvement plans.

**Compliance or Monitoring Action to be Performed:** Prior to Building/Grading Permits Issuance or recordation of Final Map, Applicant's Engineer shall prepare drainage study and improvement plans for review and approval by DPW.

**50. PW0015 – UTILITY'S COMMENTS**

**Responsible Department:** RMA-Public Works

**Condition/Mitigation Monitoring Measure:** Submit the approved tentative map to impacted utility companies. Subdivider shall submit utility company recommendations, if any, to the RMA- Public Works for all required easements.

**Compliance or Monitoring Action to be Performed:** Prior to Recordation of Map Owner/Applicant/Subdivider shall provide tentative map to impacted utility companies for review. Subdivider shall submit utility comments to RMA-PW.

#### 51. PW0016 - MAINTENANCE OF SUBDIVISIONS

**Responsible Department:** RMA-Public Works

**Condition/Mitigation Monitoring Measure:** Subdivider shall pay for all maintenance and operation of subdivision improvements from the time of installation until acceptance of the improvements for the Subdivision as computed by the Board of Supervisors in accordance with the subdivision improvement agreement and until a homeowners association or other agency with legal authorization to collect fees sufficient to support the services is formed to assume responsibility for the services.

**Compliance or Monitoring Action to be Performed:** As an ongoing condition Subdivider shall be responsible to maintain improvements until maintenance is assumed by another entity.

#### 52. PW0017 - DRAINAGE EASEMENT

**Responsible Department:** RMA-Public Works

**Condition/Mitigation Monitoring Measure:** Designate all drainage easements and natural drainage channels on the Final Map.

**Compliance or Monitoring Action to be Performed:** Prior to Recordation of Final Map Subdivider's surveyor shall identify and designate easements and natural drainage easements on the Final Map. Easements shall be dedicated as required by county.

#### 53. PW0019 - EROSION, CONTROL

**Responsible Department:** RMA-Public Works

**Condition/Mitigation Monitoring Measure:** Improvement and grading plans shall include implementation schedule of measures for the prevention and control of erosion, siltation, and dust during and immediately following construction, and until erosion control planting becomes established.

**Compliance or Monitoring Action to be Performed:** Prior to Recordation of Final Map Subdivider's Engineer shall include measures on improvement and grading plans and submit plans for county approval.

#### 54. PW0020 - PRIVATE ROADS

**Responsible Department:** RMA-Public Works

**Condition/Mitigation Monitoring Measure:** Designate all subdivision roads as private roads.

**Compliance or Monitoring Action to be Performed:** Ongoing condition, Subdivider's Surveyor shall designate private roads on Final Map.

**55. PW0021 - ROAD NAMES**

**Responsible Department:** RMA-Public Works

**Condition/Mitigation Monitoring Measure:** Submit all proposed road names to RMA- Public Works for approval by County Communications.

**Compliance or Monitoring Action to be Performed:** Prior to Recordation of Final Map Subdivider shall submit proposed road names to DPW. DPW will submit to County Communications for Approval.

**56. PW0030 - HOMEOWNERS ASSOCIATION**

**Responsible Department:** RMA-Public Works

**Condition/Mitigation Monitoring Measure:** Form a homeowners association for road and drainage maintenance. Prepare an operation and maintenance plan for all facilities. Implement a fee program to fund operation and maintenance, and have appropriate documentation recorded against each parcel within the subdivision.

**Compliance or Monitoring Action to be Performed:** Prior to recordation of Final Map, Subdivider shall submit documentation to DPW and WRA for formation of homeowners association or other entity to maintain roads and drainage improvements.

**57. PW0032 - AS BUILT PLANS**

**Responsible Department:** RMA-Public Works

**Condition/Mitigation Monitoring Measure:** A Registered Civil Engineer shall file as built plans (originals) in the Department of Public Works with a letter certifying improvements have been made in conformance to improvement plans and local ordinance.

**Compliance or Monitoring Action to be Performed:** Prior to Release of Bonds Subdivider/Engineer shall submit as built plans and stamped notice of completion letter to DPW for review and approval.

**58. PW0036 - EXISTING EASEMENTS AND ROW**

**Responsible Department:** RMA-Public Works

**Condition/Mitigation Monitoring Measure:** Provide for all existing and required easements or rights of way.

**Compliance or Monitoring Action to be Performed:** Prior to recordation of the Subdivision Map, Subdivider's Surveyor shall include all existing and required easements or rights of way on Final Map.

**59. PW0043 - REGIONAL DEVELOPMENT IMPACT FEE**

**Responsible Department:** RMA-Public Works

**Condition/Mitigation Monitoring Measure:** Prior to issuance of building permits, applicant shall pay the Regional Development Impact Fee (RDIF) pursuant to Monterey Code Chapter 12.90. The fee amount shall be determined based on the parameters adopted in the current fee schedule.

**Compliance or Monitoring Action to be Performed:** Prior to issuance of Building Permits Owner/Applicant shall pay Monterey County Building Services Department the traffic mitigation fee. Owner/Applicant shall submit proof of payment to the DPW.

## 60. PWSP01- NON-STANDARD

**Responsible Department:** RMA-Public Works

**Condition/Mitigation Monitoring Measure:** The owner/applicant shall construct intersection improvements, such as but not limited to a traffic signal or roundabout, at Carmel Valley Road and Rio Road (project's proposed access). The design and construction is subject to the approval of RMA-Public Works.

**Compliance or Monitoring Action to be Performed:** Prior to building/grading permit issuance, the owner/applicant shall submit improvement plans for RMA-Public Works approval. Construct improvements prior to occupancy or commencement of use. Applicant is responsible to obtain all necessary additional right of way, permits and environmental clearances.

## 61. PWSP02 – ENCROACHMENT NON-STANDARD

**Responsible Department:** RMA-Public Works

**Condition/Mitigation Monitoring Measure:** Obtain an encroachment permit from the RMA-Public Works and construct intersection improvements at Carmel Valley Road and Rio Road.

**Compliance or Monitoring Action to be Performed:** Prior to Building/Grading Permit Issuance Owner/Applicant shall obtain an encroachment permit from RMA-Public Works prior to issuance of building permits and complete improvement prior to occupying or commencement of use. Applicant is responsible to obtain all permits and environmental clearances.

## 62. PWSP03 – SUBDIVISION IMPROVEMENTS

**Responsible Department:** RMA-Public Works

**Condition/Mitigation Monitoring Measure:** Prepare detailed improvement plans for approval of the RMA. Plans shall include, but not limited to, utilities, roads, storm water, waste water, earthwork and grading. Roads shall be constructed in accordance with the typical section shown on the tentative map and as required by the County. Improvement security agreement for improvements not constructed shall be required prior to the acceptance of the Final Map.

**Compliance or Monitoring Action to be Performed:** Prior to Recordation of Final Map, Subdivider shall submit improvement plans prepared by his Engineer to the RMA for review and approval. Subdivider shall enter into a subdivision improvement agreement to install improvements not constructed prior to acceptance of the Final Map. Improvements shall be bonded prior to recordation of Final Map.

### 63. PWSP04 – DRAINAGE IMPROVEMENTS

**Responsible Department:** RMA-Public Works

**Condition/Mitigation Monitoring Measure:** The applicant shall submit a drainage improvement plan incorporating the CSA50 Stormwater Management and Flood Control Report recommendations for drainage area number 27. Alternate drainage improvements may be considered, subject to RMA approval. The drainage improvements shall be constructed in accordance with approved plans. Prior to the acceptance of the Final Map, subdivider shall enter into a drainage improvement agreement. Subdivider shall pay for all maintenance and operation of drainage improvements from the time of installation until a homeowners association or other agency with legal authorization to collect fees sufficient to support the services is formed to assume responsibility or as provided in the drainage improvement agreement.

**Compliance or Monitoring Action to be Performed:** Prior to Recordation of Final Map, Subdivider shall submit a drainage improvement plan prepared by a licensed engineer to the RMA for review and approval. Prior to acceptance of the Final Map, the subdivider shall enter into a drainage improvement agreement to construct drainage improvements for drainage area number 27. Improvements shall be bonded prior to recordation of Final Map. Subdivider shall be responsible to maintain improvements until maintenance is assumed by another entity or as provided in the drainage improvement agreement. Consideration of provisions, if applicable, to address cost-sharing or fair-share contributions for improvements with regional benefits, dedication of easements, and annexation into county service area may be included in the drainage improvement agreement.

### 64. PWSP05 – BICYCLE/PEDESTRIAN PATHS

**Responsible Department:** RMA-Public Works

**Condition/Mitigation Monitoring Measure:** Improvement plans shall include on-site and off-site bicycle/pedestrian facilities, subject to the approval of the RMA.

**Compliance or Monitoring Action to be Performed:** Subdivider's Engineer shall include on-site and off-site bicycle/pedestrian facilities, including the connection along the levee from the project site to Rio Road. The site bicycle/pedestrian improvements shall be constructed in accordance with approved plans.

### 65. AES-1

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** AES-1: Implement Measures to Reduce Light and Glare, and Visual Intrusion to Surrounding Land Uses and Other Public Viewpoints

**Compliance or Monitoring Action to be Performed:**

**66. AIR-1**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** AIR-1: Prohibit Wood-Burning Fireplaces

**Compliance or Monitoring Action to be Performed:**

**67. BIO-1**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** BIO-1: Conduct a Floristic Survey of Coast Live Oak Woodland Habitat in Lot 130 during the Blooming Period for Potential Special-Status Plant Species

**Compliance or Monitoring Action to be Performed:**

**68. BIO-2**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** BIO-2: Measures to Avoid or Minimize Impacts on Special-Status Plant Species Populations Relative to Lot 130

**Compliance or Monitoring Action to be Performed:**

**69. BIO-3**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** BIO-3: Conduct Mandatory Contractor/Worker Awareness Training for Construction Personnel

**Compliance or Monitoring Action to be Performed:**

**70. BIO-4**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** BIO-4: Provide Funding Assurances and Reporting Concerning Restoration Progress and Success

**Compliance or Monitoring Action to be Performed:**

**71. BIO-5**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** BIO-5: Restore Riparian Forest/Woodland Concurrent with Impact to Compensate for the Permanent Loss of Riparian Forest Habitat

**Compliance or Monitoring Action to be Performed:**

**72. BIO-6**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** BIO-6: Minimize Disturbance of Riparian Forest and Woodland

**Compliance or Monitoring Action to be Performed:**

**73. BIO-8**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** BIO-8: Create Coast Live Oak Woodland Habitat to Mitigate Permanent Loss of Coast Live Oak Woodland Habitat

**Compliance or Monitoring Action to be Performed:**

**74. BIO-9b**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** BIO-9b: Restore or Create Wetland and Pond Habitat to Mitigate Permanent Loss of Waters of the United States and State

**Compliance or Monitoring Action to be Performed:**

**75. BIO-10**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** BIO-10: Compensate for Removal of Protected Trees

**Compliance or Monitoring Action to be Performed:**

**76. BIO-11**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** BIO-11: Conduct Formal Site Assessment and Consult with U.S. Fish and Wildlife Service to Determine if Protocol-Level Surveys are Necessary OR Assume CRLF Presence

**Compliance or Monitoring Action to be Performed:**

**77. BIO-12**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** BIO-12: Restrict Filling of Ponds/Wetlands and Initial Ground-Disturbing Activities in CRLF Habitat to the Dry Season (May 1 to October 15)

**Compliance or Monitoring Action to be Performed:**

**78. BIO-13**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** BIO-13: Conduct a Preconstruction Survey for CRLF

**Compliance or Monitoring Action to be Performed:**

**79. BIO-14**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** BIO-14: Monitor Initial Ground-Disturbing Construction Activities within CRLF Habitat

**Compliance or Monitoring Action to be Performed:**

**80. BIO-15**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** BIO-15: Compensate for the Removal and Disturbance of CRLF Breeding Habitat

**Compliance or Monitoring Action to be Performed:**

**81. BIO-16**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** BIO-16: Conduct a Preconstruction Survey for Southwestern Pond Turtles and Monitor Construction Activities within Suitable Aquatic Habitat

**Compliance or Monitoring Action to be Performed:**

**82. BIO-17**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** BIO-17: Conduct Surveys for Nesting Tricolored Blackbirds

**Compliance or Monitoring Action to be Performed:**

**83. BIO-18**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** BIO-18: Redesign Restoration Plan (Proposed Project) to Replace Lost Tricolored Blackbird Nesting Colony Habitat or Incorporate Tricolored Blackbird Nesting Habitat into the Newly Developed 130-Unit Alternative Restoration Plan (If Developed)

**Compliance or Monitoring Action to be Performed:**

**84. BIO-19**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** BIO-19: Conduct Surveys for Woodrat Middens and Relocate Woodrats and Middens Prior to Construction Activity

**Compliance or Monitoring Action to be Performed:**

**85. BIO-20**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** BIO-20: Remove Vegetation during the Nonbreeding Season and Avoid Disturbance of Nesting Migratory Birds and Raptors

**Compliance or Monitoring Action to be Performed:**

**86. BIO-21**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** BIO-21: Conduct a Survey for Suitable Roosting Habitat and Evidence of Roosting Bats and Avoid Disturbing Them

**Compliance or Monitoring Action to be Performed:**

**87. BIO-22**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** BIO-22: Rescue Steelhead, if Stranded in Site Basin during High-Flow Events

**Compliance or Monitoring Action to be Performed:**

**88. BIO-23**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** BIO-23: Install Signs Along and Within the Habitat Preserve about Restraining Dogs and Encouraging Cats to be Kept Inside

**Compliance or Monitoring Action to be Performed:**

**89. CR-1**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** CR-1: Archaeological Resources- Stop Work if Buried Cultural Deposits are Encountered During Construction Activities

**Compliance or Monitoring Action to be Performed:**

**90. CR-2**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** CR-2: Archaeological Monitoring During Ground Disturbing Activities Within the Project Area During Construction

**Compliance or Monitoring Action to be Performed:**

**91. CR-3**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** CR-3: Archaeological Resources- Stop Work if Human Remains are Encountered During Construction Activities

**Compliance or Monitoring Action to be Performed:**

**92. CR-4**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** CR-4: Paleontological Resources- Stop Work if Vertebrate Remains are Encountered During Construction

**Compliance or Monitoring Action to be Performed:**

**93. CR-5**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** CR-5: Consult With a Qualified Archaeologist to Identify Resources and Assess Impacts

**Compliance or Monitoring Action to be Performed:**

**94. GEO-1**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** GEO-1: Design All Proposed Structures in Accordance with the Requirements of the California Building Code, Current Edition, and Recommendations Contained in the Site Specific Geologic and Geotechnical Reports

**Compliance or Monitoring Action to be Performed:** Prior to the issuance of grading permits, the approval of subdivision improvements, or recordation of the final map, Geologic and Geotechnical reports shall be submitted to the Division of Planning and the Division of Building of the Resource Management Agency for review and approval.

A Not shall be placed on an additional sheet of the final map that indicates that a geotechnical report was prepared all structures shall be designed in accordance with the reports and the current edition of the California Building Code.

**95. GEO-2**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** GEO-2: Conduct Additional Site-Specific Investigation Relative to Lot 130 and Implement Recommended Grading and Slope Design Criteria of the Site-Specific Geotechnical Reports

**Compliance or Monitoring Action to be Performed:** Prior to the issuance of grading permits for lot 130, a site-specific geotechnical report shall be submitted the the Building Division of the Resource Management Agency for review and approval

**96. GEO - 3**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** GEO-3: Prepare and Implement an Erosion and Sediment Control Plan

**Compliance or Monitoring Action to be Performed:** Prior to the issuance of grading permits, the approval of subdivision improvement plans, or recordation of the final map, whichever occurs first, an erosion and sediment control plan shall be submitted the the RMA - Planning Division for review and approval.

**97. GEO-4**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** GEO-4: Remove Localized Zones of Overly Loose Materials

**Compliance or Monitoring Action to be Performed:** Prior to final inspection of grading permits or subdivision improvements, the applicant shall submit a letter from a licensed geotechnical engineer indicating that all work has been preformed in accordance with approved plans and geotechnical reports.

**98. GEO-5**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** GEO-5: Prepare a Geotechnical Report for Lot 130 Concerning Expansive Soils

**Compliance or Monitoring Action to be Performed:** Prior to the issuance of grading or building permits on lot 130, the applicant shall submit to the Building Division of the RMA a geotechnical report for review and approval.

Prior to recordation of final maps, the requirements of this mitigation measure shall be included as a note on an additional sheet .

**99. GHG-1**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** GHG-1: Implement Best Management Practices for Greenhouse Gas Emissions during Construction

**Compliance or Monitoring Action to be Performed:**

**100. GHG-2**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** GHG-2: Reduce Annual Greenhouse Gas Emissions to below the Efficiency Threshold Using a Combination of Design Features, Replanting, and/or Offset Purchases

**Compliance or Monitoring Action to be Performed:**

**101. HAZ-1**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** HAZ-1: Follow Cypress Fire Protection District and Other Guidelines for Storage and Handling of Hazardous Materials

**Compliance or Monitoring Action to be Performed:**

**102. HAZ-2**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** HAZ-2: Immediately Contain Spills, Excavate Spill-Contaminated Soil, and Disposal at an Approved Facility

**Compliance or Monitoring Action to be Performed:**

**103. HAZ-3**

**Responsible Department:** Health Department

**Condition/Mitigation Monitoring Measure:** HAZ-3: Develop and Implement Plans to Reduce Exposure of People and the Environment to Hazardous Conditions During Construction Activities

**Compliance or Monitoring Action to be Performed:**

**104. HAZ-4**

**Responsible Department:** Health Department

**Condition/Mitigation Monitoring Measure:** HAZ-4: Test for the Presence of Asbestos or Lead-Based Paint and Remove in Accordance with Occupational Safety and Health Administration (OSHA) and the Monterey Bay Unified Air Pollution Control District (MBUAPCD) Procedures

**Compliance or Monitoring Action to be Performed:**

**105. HAZ-5**

**Responsible Department:** Health Department

**Condition/Mitigation Monitoring Measure:** HAZ-5: Participate in the Local Household Hazardous Waste Collection Program

**Compliance or Monitoring Action to be Performed:**

**106. HYD-1**

**Responsible Department:** Environmental Services

**Condition/Mitigation Monitoring Measure:** HYD-1: Prepare and Implement a Stormwater Control Plan

**Compliance or Monitoring Action to be Performed:** Prior to the issuance of grading permits or approval of subdivision improvement plans, the applicant shall prepare a Stormwater Control Plan.

Note on map

**107. HYD-2**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** HYD-2: Prepare and Implement Operation and Maintenance Plan for Stormwater Control Measures

**Compliance or Monitoring Action to be Performed:**

**108. HYD-3**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** HYD-3: Enter into Maintenance Agreement for Stormwater Control Measures

**Compliance or Monitoring Action to be Performed:**

**109. HYD-4**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** HYD-4: Implement a Spill Prevention and Control Program

**Compliance or Monitoring Action to be Performed:**

**110. HYD-5**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** HYD-5: Implement Measures to Maintain Surface Water or Groundwater Quality

**Compliance or Monitoring Action to be Performed:**

**111. HYD-6**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** HYD-6: Protect Eastern Slope of Excavated Basin

**Compliance or Monitoring Action to be Performed:**

**112. HYD-7**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** HYD-7: Avoid Encroachment into the 100-year Floodplain for Lot 130 Uses

**Compliance or Monitoring Action to be Performed:**

**113. NOI-1**

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** NOI-1: Implement Noise-Reducing Treatments at Residences Located Near the Batting Practice Area and Lot 130

**Compliance or Monitoring Action to be Performed:**

114. NOI-2

**Responsible Department:** RMA-Planning

**Condition/Mitigation Monitoring Measure:** NOI-2: Employ Noise-Reducing Construction Practices

**Compliance or Monitoring Action to be Performed:**

115. PSU-1

**Responsible Department:** Water Resources Agency

**Condition/Mitigation Monitoring Measure:** PSU-1: Dedicate Water Rights for the Project; Design for, Meter, and Monitor Water to meet Water Budgets; Implement Remedial Action if Water Budgets Exceeded

**Compliance or Monitoring Action to be Performed:**

116. PSU-2

**Responsible Department:** Health Department

**Condition/Mitigation Monitoring Measure:** PSU-2: Test Well Supply, Identify Water Treatment and Distribution Facilities, and Avoid Impacts on Biological Resources

**Compliance or Monitoring Action to be Performed:**

117. PSU-3

**Responsible Department:** RMA-Public Works

**Condition/Mitigation Monitoring Measure:** PSU-3: Coordinate with Appropriate Utility Service Providers and Related Agencies to Reduce Service Interruptions

**Compliance or Monitoring Action to be Performed:**

118. TR-1

**Responsible Department:** RMA-Public Works

**Condition/Mitigation Monitoring Measure:** TR-1: Contribute Fair-Share to Interchange Improvements of Laureles Grade and Carmel Valley Road through the CVTIP Traffic Impact Fee

**Compliance or Monitoring Action to be Performed:**

**119. TR-2**

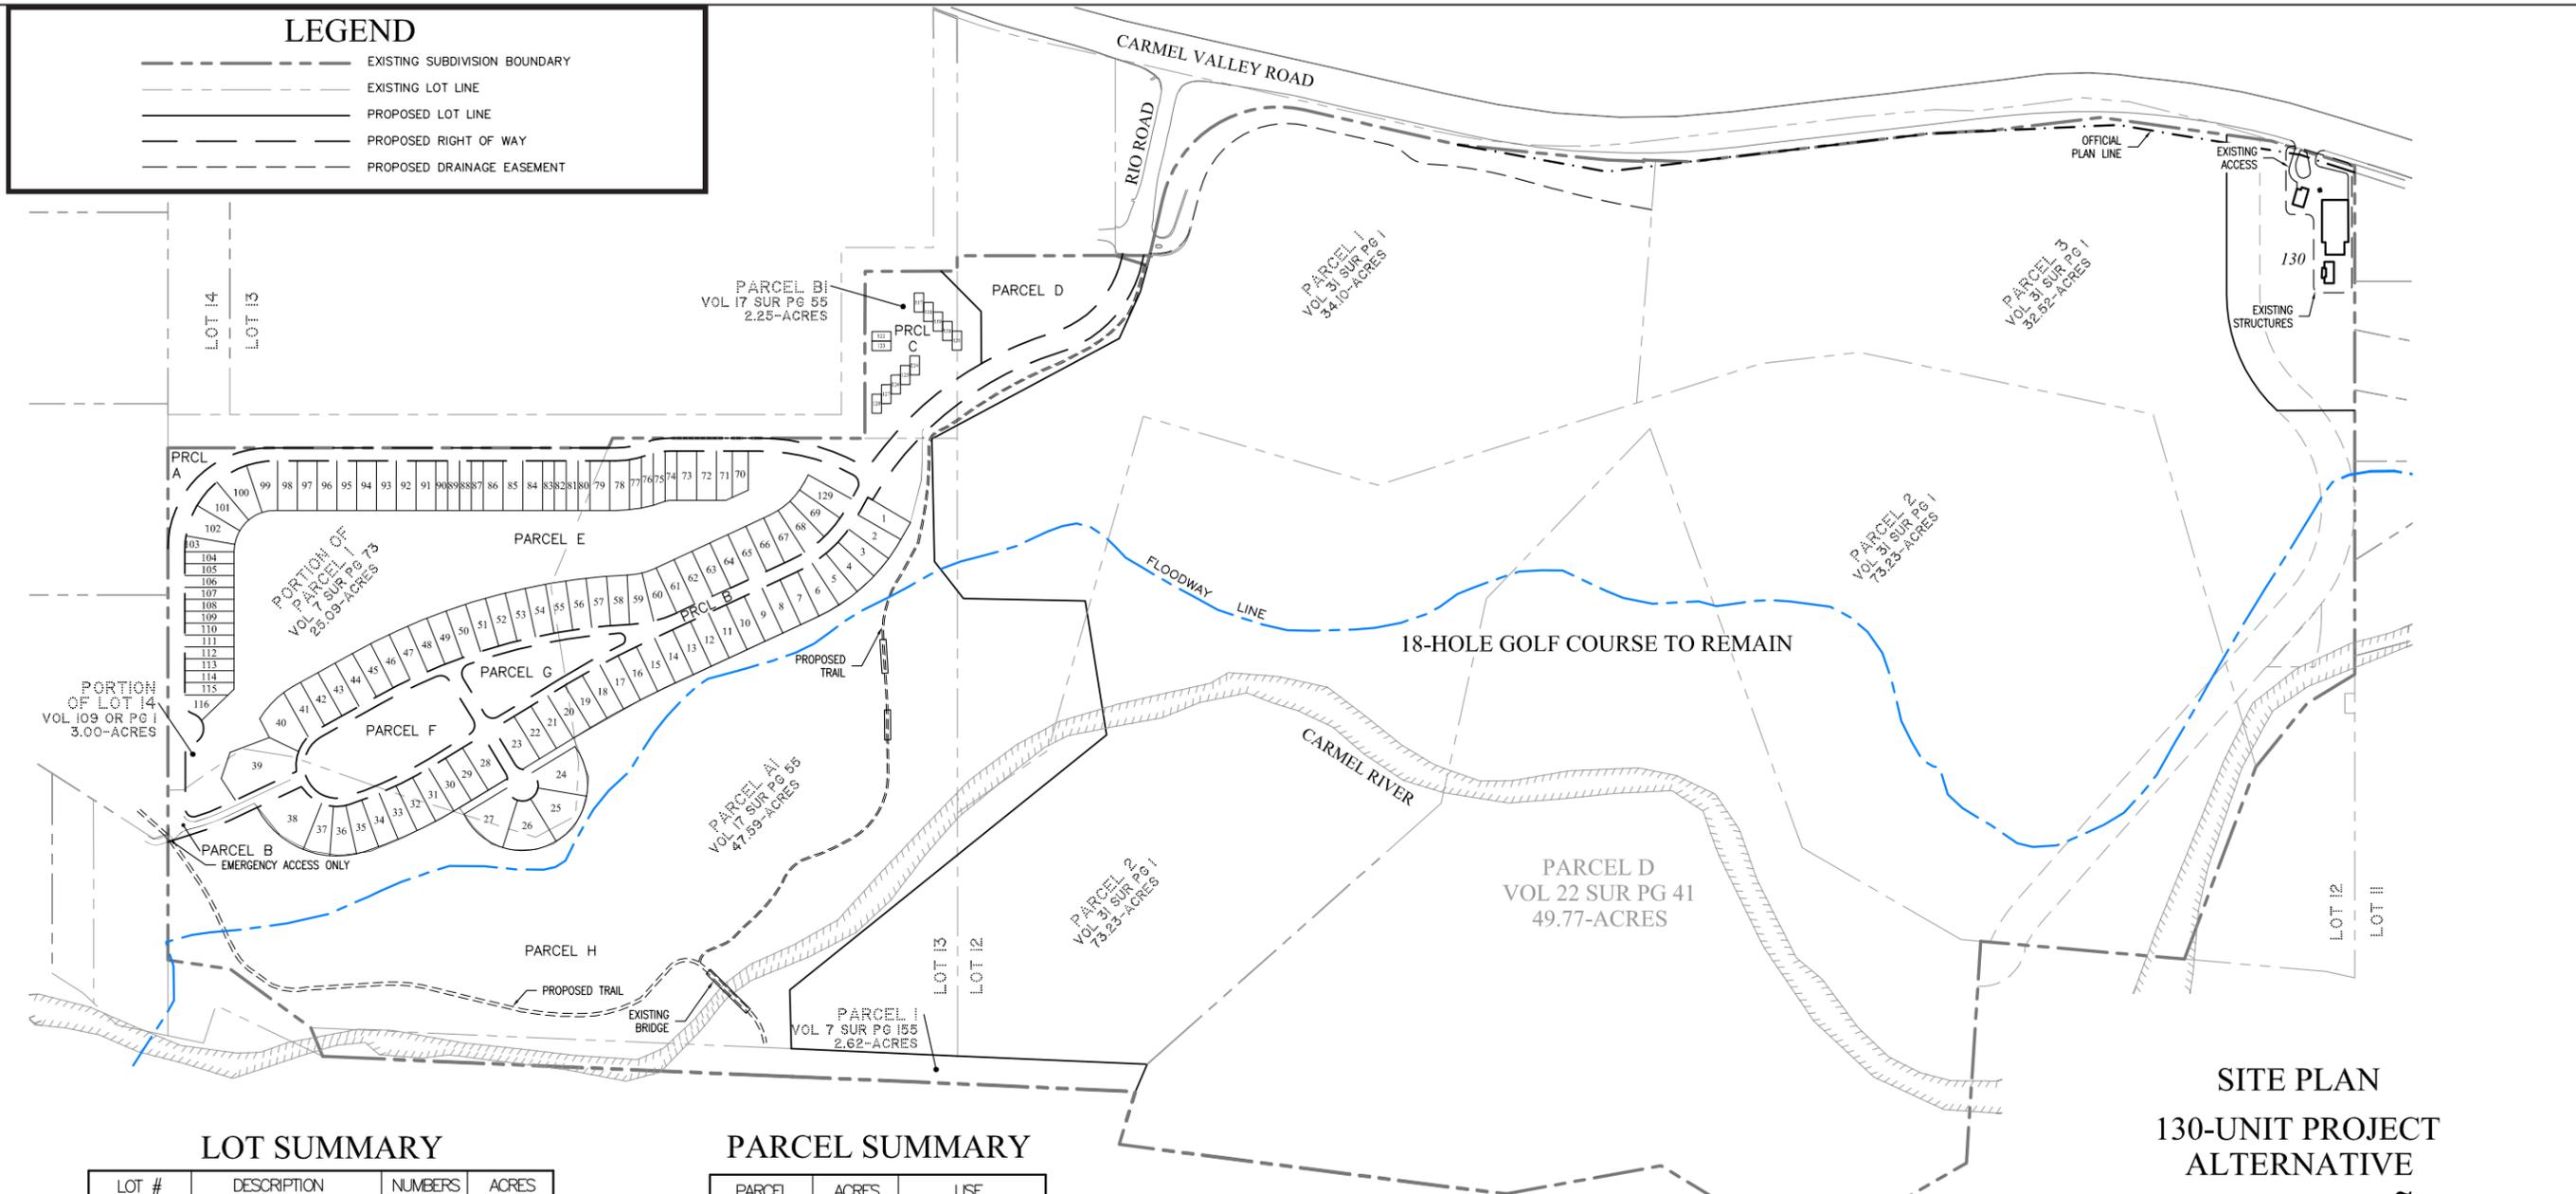

**Responsible Department:** RMA-Public Works

**Condition/Mitigation  
Monitoring Measure:** TR-2: Develop and Implement a Construction Traffic Control Plan

**Compliance or  
Monitoring  
Action to be Performed:**

**LEGEND**
