

LABORATORY SERVICES

The Monterey County Public Health Laboratory provides laboratory support for the programs and activities of the local health department. It also provides reference laboratory service, consultation and training to the community.

Normal turnaround time for Direct FA and Nucleic Acid Amplification testing is 5 working days. STAT testing for these services is available at an increased cost.

Turnaround Time Charge

5 days.....list price

24 hrs..... 2 times list price

TRAINING & CONSULTATION

The Monterey County Public Health Laboratory is approved by the California State Department of Health Services for training Public Health Microbiologists. We are also an affiliate of the Clinical Laboratory Scientist internship Program at California State University, San Jose. The Laboratory provides facilities and faculty for providing clinical experience in the specialties of Microbiology (including Bacteriology, Mycobacteriology, Mycology, Parasitology, and Virology) and Diagnostic Immunology (including Syphilis, Serology and General Immunology).

Our laboratory is a host site for teleconferences and web-casts presented by the National Laboratory Training Network and we occasionally offer workshops and lectures for the medical and public health professionals of Monterey County. These presentations are at no cost to the participant and provide continuing education units.

REPORTABLE DISEASES

Laboratory results indicative/suggestive of anthrax, botulism, brucellosis, plague, smallpox, tularemia, and viral hemorrhagic fever, must be reported to the local health officer within one hour after the laboratory has notified the health care provider who ordered the test. State and federal authorities have identified these seven diseases as meriting intensive surveillance and rapid reporting.

The most current methods for ruling out these diseases are available at the American Society for Microbiology webpage:

<http://www.asm.org/Policy/index.asp?=-6342>

The Monterey County Public Health Laboratory can provide consultation to assist: 1) ruling out the above diseases; and, 2) arranging "rule-in" or confirmatory testing through Laboratory Response Network.

Notification of the Monterey County Health Officer can be accomplished by calling the following numbers:

(831) 755-4521 (regular business hours)

(831) 755-5100 (non business hours)

Refer to CCR Title 17 §2505 for other diseases reportable by laboratories. Current regulations are available at the California Department of Health Services website:

<http://www.dhs.ca.gov/ps/dcdc/disb/disbindex.htm>

Special project pricing available for high volume utilization, please inquire.

MONTEREY COUNTY HEALTH DEPARTMENT

2014 FEE SCHEDULE (Effective May 23, 2014)

PUBLIC HEALTH LABORATORY

**1270 Natividad Road
Salinas, CA 93906
Phone (831) 755-4516
Fax (831) 755-4652**

The Monterey County Public Health Laboratory was established in 1951 under the authority of section 101150 of the Health and Safety Code. The laboratory is certified by the California State Department of Health (DHS #0904) and the federal Centers for Medicare and Medicaid Services (CLIA #050643583). The certified public health microbiologist report all analyses.

**Edward L. Moreno, MD, MPH, Health Officer
Gerry Guibert, MS, PHM, Laboratory Director**
