

Monterey County EMS System Policy

Policy Number: 2170
Effective Date: 7/1/2019
Review Date: 6/31/2022

FIRELINE PARAMEDIC

I. PURPOSE

- A. To establish authorization and procedures for assignment as a Fireline Paramedic through the statewide Fire and Rescue Mutual Aid System.
- B. To establish a process of accountability for the paramedic functioning within the Medical Unit at a major fire incident.

II. POLICY

- A. Paramedics who are currently California licensed, Monterey County accredited, employed by a Monterey County ALS service provider, and meet the training requirements outlined in the FireScope Fireline EMT-Paramedic position manual may be assigned to a Fireline Paramedic position at a major fire incident.
- B. Monterey County paramedics are permitted to function under the Monterey County EMS scope of practice whether assigned to a Fireline Paramedic position within Monterey County or when requested to an incident outside Monterey County.
- C. Online medical control shall be provided by a Monterey County approved Base Hospital if contact can be established.
- D. Narcotics are not to be a part of the Fireline Paramedic drug inventory without written approval from the Monterey County EMS Medical Director.
- E. Requirements for Fireline Paramedic assignment into Monterey County from other counties.
 - 1. Currently State licensed and locally accredited paramedics may function under their home county scope of practice when assigned as a Fireline Paramedic within Monterey County.
 - 2. Incident Command or designee shall provide notice to the EMS Agency when Fireline Paramedics are utilized within Monterey County. This notice shall be provided within 24 hours of check in by the Fireline Paramedic.
 - 3. Incident Command shall provide a copy of the Unit Activity Log for the Fireline Paramedic to the EMS Agency within 72 hours after termination of the incident.

III. PROCEDURE

- A. Approval for including narcotics as part of the Fireline Paramedic drug inventory.
 - 1. Those ALS service provider agencies wishing to include narcotics in the Fireline Paramedic drug inventory shall submit a written plan for narcotics management to the EMS Medical Director. The EMS Medical Director shall approve the written narcotics management plan prior to deployment of the Fireline Paramedic should the ALS service provider wish to include narcotics as part of the Fireline Paramedic inventory. The written narcotics management plan shall include, at a minimum, the following:
 - a. A written description of the measures to be taken to ensure security of the narcotics.
 - b. Measures to ensure proper disposal of any unused portion of opened narcotics.
 - c. The process for documenting assignment of narcotics to the Fireline Paramedic and documentation of the use and disposal of narcotics.
- B. Fireline Paramedics are permitted to carry a reduced amount of medical equipment, supplies and pharmaceuticals consistent with FireScope Fireline paramedic position recommendations. Fireline paramedics are not permitted to carry equipment, supplies, or pharmaceuticals that are not within the Monterey County EMS scope of practice.
- C. A Monterey County EMS Patient Care Report (PCR) shall be completed for each patient contact. A copy of the PCR shall be provided to the Medical Unit Leader at the incident, the receiving hospital if the patient is transported, and the Monterey County EMS Agency. The PCR shall be provided to the EMS Agency within 3 business days of returning to the County.

IV. NOTE:

- A. Equipment requirements different than recommended in Firescope Fireline Paramedic Guide.
 - 1. Waveform display is required for the AED/SAD.
