## FOR IMMEDIATE RELEASE

**Date: January 24, 2019**

### **Moss Landing, California – Moss Landing Rule 20A Underground Utility District Project**

Monterey County announces the commencement of construction activities for utility undergrounding as part of the Moss Landing Rule 20A project. Moss Landing Road and Sandholt Road will be trenched in anticipation for undergrounding of utilities. This project will provide Moss Landing with an up to date utility infrastructure. The construction duration of the project is expected to be 12 months, weather permitting.

Tentatively, construction is expected to begin at the end of January 2019. Majority of the work is expected to be done during the day, Monday through Friday between the hours of 8:00 a.m. and 5:00 p.m.

Construction activities will include temporary traffic control measures, such as lane closures, and trenching along the street. Monterey County will make every effort to keep the community updated on the progress of the project as well as the impacts of the traffic controls and lane closures.

The estimated construction cost to underground Moss Landing utilities is \$3,800,000 and is funded by Rule 20A Funds. Daleo Inc., from Gilroy, California, was awarded the construction contract for this project.
