Stepping Up 101: A Primer for Sheriffs

In the more than 500 counties that have joined the national Stepping Up initiative, sheriffs play an integral role in collaborating with county leadership and other community partners to implement policies, practices, and programs that support their efforts to reduce the number of people with mental illnesses in jails while ensuring community safety.

Stepping Up and the National Sheriffs' Association are co-hosting a webinar on Feb. 11 at 3 p.m. EST to outline the benefits to sheriffs of engaging in the initiative and to share concrete ideas on how sheriffs can help lead this work in their counties.

Participants will hear from national experts and fellow sheriffs from communities of varying sizes about their work and the impact it has had in their communities and departments.
